ACKNOWLEDGEMENTS

It gives me immense pleasure to record my deep sense of gratitude and indebtedness to Professor V.S. Rama Das, D.Phil (Oxon), F.A.Sc., F.N.A., Professor and Director, Photosynthetic Research Centre, School of Life Sciences, University of Hyderabad, Hyderabad. (Presently Professor & Head and Dean, School of Biological Sciences and Earth Sciences, Sri Venkateswara University, Tirupathi) for his constant encouragement, invaluable suggestions and many fruitful discussions during this investigation. I also express my profound thanks to him for allowing me to use his personal library.

I owe my gratitude to Prof. A.N. Radhakrishnan (Former Dean), and Prof. P.S. Ramamurthy (Present Dean), School of Life Sciences, University of Hyderabad, Hyderabad for providing the Lab facilities. I express my grateful thanks to Dr. N.C. Subramanyam, School of Life Sciences, University of Hyderabad and Sri Seshachary, University Engineer for their kind help.

I am thankful to Dr. A.S. Raghavendra, Department of Botany, Sri Venkateswara University, Tirupathi and Dr. I.M. Rao, Department of Botany, University of Illinois, Urbana, Illinois, USA for their kind suggestions during the study. My thanks are due to Mr. Y. Seethambaram, Assistant Professor and Dr. A. Narayana Rao, Associate Professor, Andhra Pradesh Agricultural University, Hyderabad, for their kind help at various stages of this investigation.

My sincere thanks are due to staff members and research scholars, School of Life Sciences, University of Hyderabad, Hyderabad and Botany Department, Sri Venkateswara University, Tirupathi.
I express my grateful thanks to Mr. S. Dutta and staff, Library, International Crops Research Institute for the Semi-Arid Tropics (ICRISAT), Hyderabad, for Library facilities.

The receipt of a Teacher Fellowship from University Grants Commission, New Delhi, during the tenure of this study is gratefully acknowledged.

(C. R. Naidu)
