**APPENDIX - K**

**H.S.P.Q - FORM-A**

*(HIGH SCHOOL STUDENTS PERSONALITY QUESTIONNAIRE)*

**WHAT TO DO:** You have a booklet and Answer sheet. Write your name, age, etc., on the Answer Sheet where it tells you to.

We want to know what sort of person you are. The paper before you has questions about your interests and your likes and dislikes. First we shall give you two examples so that you will know exactly what to do. After each question there are three answers. Although you are to read the question in this booklet, you must put your answers on the answer sheet, along side the same number booklet. Read the following examples and mark an x for your answer on the Answer Sheet where indicated:

**EXAMPLES:**

<table>
<thead>
<tr>
<th>1. Which would you rather do:</th>
<th>2. If you have a quarrel, do you make friends again quickly?</th>
</tr>
</thead>
<tbody>
<tr>
<td>a. Visit a zoo</td>
<td>a. yes, b. in between (or uncertain) c. no</td>
</tr>
<tr>
<td>b. Uncertain</td>
<td></td>
</tr>
<tr>
<td>c. Go up in an aeroplane?</td>
<td></td>
</tr>
</tbody>
</table>

As you see from these examples, there are usually no right and wrong answers. Each person is different and has only to say what is true for him. You can always find one answer that suits you a little better than the others. So never leave the answers without marking one of the answers.

Inside you will find more questions like the one above. When you are told to turn the page begin with number one and go on until you finish all the questions. In answering them please keep these four points in mind:

Answer the questions frankly and truthfully. There is no advantage in giving the wrong impression. Never give an untrue answer about yourself because you think it is the “right thing to say.” There are ways of detecting such unfair answers.

1. Please answer the questions as quickly as you can. Do not spend time puzzling over them. Give the first natural answer as it comes to you. Some questions are a bit similar to others but no two are exactly alike and your answers will often differ in these cases.
2. Use the middle answer only when it is absolutely impossible to lean toward one or the other of the answer choices. In other words the "yes" (or "a") or the "no" (or "c") answer should be used for most cases.

3. Do not skip any questions. Occasionally a statement may not seem to apply to you or your interests, but answer every question, somehow.

If there is anything you want to ask about what you have to do, ask now. If there is nothing now, but you meet a word later or you do not understand, stop and ask then.

1. Have you understood the instructions?
   a. yes,  
   b. uncertain
