I am extremely privileged to put on record my intense and heartfelt gratitude to my respected Guru and the fundamental guiding element of the present study, Dr. Nirmal Singh, Associate Professor, Department of Pharmaceutical Sciences and Drug Research, Punjabi University, Patiala, Punjab. No arrangement of alphabets can ever define the truth that underlies the sequence of his persistent, unending and extreme efforts on me that not only gently guided my way through this present endeavor by his sublime and noble behavior, but also reinforced the same effort with a grandiose wealth his scientific rigor. His benevolent self had so much to give to me, but the frail me has only one single but truthful word in return i.e. a thank you.

May I put on record my extreme gratefulness to Professor (Dr.) Ashok Kumar Triwary, Dean, Faculty of Medicine, Department of Pharmaceutical Sciences and Drug Research, Punjabi University, Patiala, Punjab and Dr. Rakesh Kumar Goel, Head, Department of Pharmaceutical Sciences and Drug Research, Punjabi University, Patiala, Punjab for their continuous and unconditional support and facilitation of the present attempt.

May I further attempt to delineate my indebtedness to Mr. Amteshwar Singh Jaggi, Assistant Professor, Department of Pharmaceutical Sciences and Drug Research, Punjabi University, Patiala, Punjab for not only being a encouraging guide since my undergraduate days, but also for guiding me with his innumerable constructive comments and ideas which contributed substantially towards the facilitation of the present essay.
