I thank the Lord Almighty for destining me to take up research five years ago and seeing me through the vicissitudes.

My sincere thanks to the management of Dayananda Sagar College of Engineering for encouraging me to take up research work. I would like to thank Dr. Hemachandra Sagar, Chairman, Dayananda Sagar Institutions and Dr. Premachandra Sagar, CEO and Vice-Chairman, Dayananda Sagar Institutions for supporting me whenever approached. Thanks to Mr. Galiswamy, Secretary, Dayananda Sagar Institutions for being a father figure and great source of encouragement. My thanks are also due to Dr. A N N Murthy, Principal, Dayananda Sagar College of Engineering for extending his patient guidance. Thank you- Dr. Nethaji S Ganesan, former Principal, Dayananda Sagar College of Engineering for your timely help and being there at the moment when I needed your support the most. I am thankful to all the staff members of library at Dayananda Sagar College of Engineering for providing timely help in accessing books, journals and e-resources.

Thanks are due to the Director, R & D Center, Bharathiar University for providing me an opportunity to pursue research and to the staff members for giving quick response to queries and keeping us intimated.

I would also like to thank Dr. (Mrs.) Devi T, Head (in-charge), Department of Computer Science and Engineering (CSE), Bharathiar University, Coimbatore, and the faculty of Department of CSE, for their patience and kind heart in accommodating our requests regarding the schedule of the doctoral committee meetings. I thank all the advisory committee members for their valuable feedback.

I would like to thank Dr. G T Raju, Dean of Engineering, Professor and Head, Department of CSE, RNS Institute of Technology, Bangalore, for agreeing to be my
research supervisor. His profound knowledge, in-depth analytical skills and careful scrutiny has helped me to question, contemplate and visualize solutions. He has taught me so much during the last five years - from problem formulation, analysis, writing a paper to preparing the thesis and of course, dedication. Sir, you have mentored, encouraged and motivated me throughout these years, having faith in me even when I did not. Your meticulous read through the dissertation and timely feedback has shaped it into the final form. How can I forget the kindness in rescheduling your appointments for those lengthy discussions? I am grateful to you for accommodating your time to take up the long and tiring journey from Bangalore to Coimbatore to ensure we did not miss the doctoral committee meeting schedule. I am truly blessed to have a Guru like you with so much patience, knowledge and humility.

I thank the organizations and the participants of the case study, who wished to aid this research anonymously. Your patience and response during the study has been invaluable.

My sincere thanks to the librarians of Indian Institute of Science and Indian Institute of Management, Bangalore, for granting access to their repository and helping find the proper resource.

I would especially like to thank all my teachers throughout my student days for their dedication in their profession and becoming my role models. They have inspired me to take up teaching and pass on the knowledge to the next generation.

My parents, Sheela and Shivashankaran have toiled their youthful days and sacrificed everything to ensure I get a decent education. Their love and support has been my strength. Amma, Appa- your prayers have helped me through the difficult phases of research. Appa, thank you for proof reading this dissertation and noticing slips in grammar. I am blessed to have such gentle, cultured and learned parents. Thank you for everything I am today.

Nataraja, I owe you so much for being a wonderful and understanding husband. You are a shoulder to lean on. You have stood beside me on those lowest and depressing days. Thank you for supporting me, keeping me focused towards the goal and taking care of me during those illnesses and surgeries. I have been extremely fortunate to have been touched by a real life angel like you.
My daughters, Shobhana (Gaura) and Shubangi (Chummi) have been the greatest support system of my life. Thank God for gifting them to me. They have accommodated and tolerated my shift from a mother on-demand to no-demand phase. Gaura - your little shoulders have taken up the responsibility of cooking during your vacations when you could make merry with your friends. You have been a wonderful daughter. Chummi - your laughter is infectious and has always lifted my spirits up. You have taught me to see this world as one happy place. I am proud of you both. Thank you.

Vibha, thank you for those brainstorming sessions. You have been a wonderful sounding board. I truly cherish the support you gave me during those hard times and being my close confidante. Ambika, thank you for being with me through this journey. Thanks to my colleagues at the Department of MCA, for helping me understand how strong willed and motivated I am.

During the pursuit of this research work, I may have faltered in performing my duty as a daughter, wife, mother and a friend. My sincere apologies to you all. Forgive me if you can.
