ACKNOWLEDGMENT

I wish to place on record with immense pleasure and profound gratitude, my deep sense of indebtedness to Dr. B. Kannabiran, Ph. D., Reader, Department of Biochemistry and Molecular Biology, School of Life Sciences, Pondicherry University for his unique, admirable, meticulous and invaluable guidance, constant encouragement, precious suggestions and constructive criticism during the course of the project in most effective and systematic manner and for having provided me an idealistic methodological orientation throughout the course of this study.

I wish to express my hearty thanks to Dr. P.P. Mathur, Head, and Dr. E. Vijayan, Former Head, Department of Biochemistry and Molecular Biology and Former Dean, School of Life Sciences for having provided me with the laboratory and infrastructure facilities during the period of my research work. My sincere thanks are due to Dr. S. Jayachandran, Dean, School of Life Sciences for his encouragement. My sincere thanks are due to Dr. K. Srikumar, Reader and Dr. A. Ramachandra Reddy, Former Reader, Department of Biochemistry and Molecular Biology, Pondicherry University for their help.

I am extremely grateful to the Doctoral Committee members, Dr. V. Ramassamy, Reader, Department of Botany, Kanchi Mamunivar Centre for Post Graduate Studies, and Dr. N. Parthasarathy, Reader, Department of Ecology and Environmental Sciences, Pondicherry University for their valuable suggestions and constant encouragement.

I express my gratitude to Dr. Paneerselvam, Reader, Department of French, Dr. T. Ganesan, Lecturer, Tagore Arts and Science College, Pondicherry and Dr. (Mrs) V. Gomathi, Research Associate, Center for Advanced Studies in Botany, University of Madras, Chennai, for their untiring support, apt advice and needed inspiration which enabled me to complete this task successfully.
I wish to express my sincere thanks to Professor Dr. J. Muthumary, Professor Dr. Murugesan, Center for Advanced Studies in Botany, University of Madras, Chennai for their help in the identification and confirmation of the fungus and I owe an obligation to the Institute of Microbiology Technique, (IMTECH), Chandigarh for having provided me the bacterial culture.

I owe an obligation to Mr. H. Ravikumar, Physical education teacher and Mr. S. Hariharan, Field supervisor, Government of Pondicherry for their continual help.

I thank profusely and sincerely thanks to Dr. (Mrs) K.C. Chitra, Dr. R. Soureche, Dr. H. Chitra and Dr.(Mrs) Asha, A.N., Mr. B. Nabi, B., Mr. J. P. Pavan, for their incessant help, constant support and encouragement.

I express valuable thanks to the Research Scholars, Miss S.N. Rajeswari, Miss Shyamala Mr. Ravikumar, Mr. Muthu, Department of Biochemistry and Molecular Biology and Mr.Kamalakannan, Department of Chemistry for their timely help and limitless support.

I express my gratitude to the Research Scholars, Departments of Plant Pathology, Plant Physiology and Plant Biochemistry, Tamil Nadu Agriculture University, Coimbatore for their valuable suggestion and for having provided me with needed information with concern.

I wish to convey my sincere thanks to Distributed Information Center and Central Library, Pondicherry University, Libraries of Center for advanced studies in Botany, University of Madras, Department of Plant Pathology, Plant Physiology and Plant Biochemistry, Tamil Nadu Agriculture University, Coimbatore for having provided me with the needed update information that kept me abreast of advance in the field till date.
My heartfelt thanks are due to Mrs. Sivakami, Mr. Veeraragavan office staff, Department of Biochemistry and Molecular Biology, Pondicherry University for their help.

I profusely thank my husband Mr. G. K. Jayasudhahar, Parents-in-law, Mrs. Pangajam and Mr. Gothandapani for having provided me the needed source of inspiration during the last phase of my work.

And most of all, I owe immensely to my Beloved Dad and Mom, for their keen interest in me, initiative and inspiration but for which I would not have joined this Ph. D. programme and completed it successfully. Equally my deepest thanks are due to my sister Ranjeetha, brothers Dhanaraja and Barathiraja for everything that cannot be put down in words so easily. Their limitless and unstinted support backed me at all the stages and kept me going ahead in spite of all troubles. Let my heartfelt thanks reach them for their love and affection towards me that made my research effort a memorable and successful one.

R. Bhjatilagam
