I submit my heartful thanks to the feet of The Almighty God for His blessings showered upon me to complete this work successfully.

I offer my profound gratitude to my research supervisor, Dr. V. Sukumaran Assistant Professor (SS), Department of Biotechnology, Periyar Maniammai University, for making this research possible. His constant support, guidance, knowledge, pain-staking effort in proof reading the drafts, encouragement at every stage and enriched my work. Indeed, without his guidance, I would not be able to complete this work successfully.

I feel great happiness in expressing my thanks to the Director, Research and Development centre, Bharathiar University, Tamilnadu, India for permitting me to take up this doctoral research work and my special gratitude for his supportive and constant encouragement and appreciation when deserved.

I am deeply grateful to Dr. K. Swaminathan, Professor and Head i/c, Department of Biotechnology, School of Life Sciences, Bharathiar University, Coimbatore, for his continual support and encouragement throughout the period of my research.

I am deeply grateful to our honourable Vice-chancellor, Registrar, Dean (Research) of Periyar Maniammai University, Vallam, Thanjavur for permitting me to take up this doctoral research work and his insightful comments and encouragement throughout the project period.

At this point of time, I wish to thank the Chairman Dr. K. Varadharajan and Vice Chairman Mr. John Ashok Varadarajan, Thanthai Hans Roever College, Perambalur for giving me an opportunity to pursue my higher studies and also by providing the basic amenities to enhance my research career and to become a part of this great professional research community.
I extend my sincere thanks to T. S. GNANENDRA, Associate Professor, Department of Biotechnology, Mahendra Arts and Science College, for providing me an opportunity to work on softwares and his encouragement to successfully complete this research.

Dr. Bijul Lakshman A, PDF, Director of Research & Development, Fulbright International Fellow in PDR, Visiting Research Scientist, USA has been always there to listen and give advices. I am deeply grateful to him for the long discussions that helped me to sort out the technical details of my research. I am also thankful to him for countless revisions of this thesis.

Zhenming Chi, UNESCO Chinese Center of Marine Biotechnology, Ocean University of China, Qingdao, China for his suggestions and help.

Dr. Rajasekaran M, Associate Professor, Department of Biotechnology, Sastra University, Thanjavur for their assistance and cooperation during the period of research.

I would like to express my heartfelt thanks and deep gratitude to my colleagues Mrs.R.Kalaivani, Dr.P.Veerasamy, Ms.K.Geetha, Ms. Saranya, Mrs.A.Rajesh, Thanthai Hans Roever college, Perambalur for her valuable encouragement through my studies.

I thank Mrs.R.Kalaivani, Department of Biotechnology, Bon Secours college for Women and Ms. K.Subha, Research Scholar supported me to overcome some setbacks through the difficult times and stay focused on my Research and they were always willing to help me and give them best suggestions.

I offer my sincere thanks to my Mother-in-law, Father-in-law, Niece, Nephew, my cousins and all my Family members for their words of encouragement, care and affection which motivated me intrinsically towards a better path.
Most importantly, none of this would have been possible without the love and patience of my husband, parents and Sister. The love provided was an inspiration and driving force. Their love and encouragement allowed me to finish this journey. I owe my thanks to My husband R. Prabhu, mother J. Suseela and my father C. Jayaraju, Sister J. Johncy rani and my lovable son P.J. Aadhavan their constant source of love, concern, support, strength and cultivated spirit of confidence. In particular, the patience and understanding shown by them during the period of research is emotionally honoured and is greatly appreciated.

ALL IS WELL

J. JEYASREE
