Task 6

Following passages and fill in the blanks with appropriate words to complete the incomplete sentences. The context of the passage will give you the clue of the sentence type.

Julia was searching for her spectacles. She turned her room upside down looking for it. Her mother entered the room and asked "What are you looking for? Julia replied "I am looking for my spectacles". Just then her brother walked in and said "Here are your spectacles". Julia turned round and exclaimed " Where did you find it?"

Robins was all excited. Her grandchildren were coming to spend their vacation with her. Before leaving for the station she called up the station master to check if the train was on time. She asked "Station is the train on time?" "The train is late", replied the station master. "When will the train arrive?" "Can't say. Call after some time we may know something by then" said the official.

A small boy was standing near the bus stop crying. A policeman came to him and asked " Why are you crying?" The boy sobbed and said he had lost his way home. The policeman asked "Where do you live?" The small boy stopped crying and looked at the policeman hopefully "Sir, will you leave me home?"

John was feeling thirsty. He wanted to have a glass of water. He walked into a fast-food joint and said "Please bring me a glass of water?" The manager looked up and said "We serve only soft drinks here. He smiled and asked " Will you bring a glass of Pepsi?" John smiled back and said "A glass of Pepsi will do."

Someone tapped on my shoulder. I turned round annoyed and said "What are you doing?". The man smiled and said "Hello John! How are you?" The voice sounded familiar. I looked at him closely his smile broadened. Once again he said "John do you recognize me? This time I did recognize him. But he looked so different. The man was same but he had put on so much of weight. Who could imagine the handsome dashing Jake could one day become so fat and ugly. I smiled back and asked "What have you done yourself?"
