ACKNOWLEDGEMENT

The investigator wishes to express her sincere gratitude and profound indebtedness to her guide Dr. S. Jayaraman, Vice-Principal, Sri Ramakrishna Mission Vidyalaya Autonomous College of Arts and Science, Coimbatore, under whose able supervision and dynamic guidance the research work was carried out. It would have been impossible to complete the work successfully without the inspiring invaluable and unfailing guidance of her supervisor. Dr. Jayaraman's sincerity of purpose, in-depth involvement, untiring patience, constructive criticisms, scholarly advice and constant encouragement at each and every step of the study have abundantly helped the investigator in her endeavour.

The investigator records deep, sincere, humble and reverential gratitude to Padmashri Dr. (Mrs.) Rajamal P. Devadas, Chancellor, Avinashilingam Institute for Home Science and Higher Education for Women (Deemed University), Coimbatore for her constant inspiration, warm and willing help in addition to the kind gesture of according permission to carry out the study.

Grateful thanks are due to Swami Tanmayanandaji, Secretary, Sri Ramakrishna Mission Vidyalaya, and Dr. K. Kulasadavel, Secretary, Sri Ramakrishna Mission Vidyalaya Autonomous College of Arts and Science, for their kind help and encouragement.

The investigator expresses her sincere thanks to Prof. T. N. Rajarathinam, former principal, Prof. T. S. Ramaswamy, Principal, Dr. R. Pitchai, former Head, Department of Physics and Dr. A. R. Ramaraju, Head, Department of Physics, Sri Ramakrishna Mission Vidyalaya Autonomous College of Arts and Science, for their consistent encouragement in addition to providing necessary infrastructure and facilities to conduct the research work.
The investigator also wishes to express thanks to all members of staff of Physics Department for their timely help and co-operation.

The investigator profoundly thanks Dr. (Mrs.) Lakshmi Shanta Rajagopal, Vice-Chancellor, Dr. (Mrs.) Nirmala Krishnamoorthy, Dean, Faculty of Science, Mrs. K. Rajamma, Head, Department of Physics, Avinashilingam Institute for Home Science and Higher Education for Women (Deemed University) for their valuable suggestions, sustained support and good wishes. The investigator also wishes to convey her thanks to all members of staff of Department of Physics for their good wishes and co-operation.

The investigator is thankful to Dr. V. Balasubramanian, Radio Astronomy Centre, Ooty, for scrutinizing the manuscript of the thesis and for providing valuable suggestions.

The investigator and her supervisor are grateful to Tamil Nadu State Council for Science and Technology, for providing financial assistance for the project.

The investigator extends her sincere thanks to National Aeronautical Laboratory, Bangalore for the valuable assistance for providing selective coatings of the absorber tubes.

Thanks are due to Filaments and Windings Pvt. Ltd., Coimbatore for their assistance in developing the fibre glass reflector.

The investigator is grateful to Mr. J. Chandrasekaran, Madurai Kamaraj University, Madurai for his help in computer work.

The investigator is thankful to Mr. N. Krishnan, Solar Energy Laboratory Technician for rendering technical assistance throughout the work.
The investigator desires to thank the Librarians of IIT Bombay, IBP Ltd., Bombay, Sri Ramakrishna Mission Vidyalaya Autonomous College of Arts and Science, Coimbatore, Avinashilingam Institute for Home Science and Higher Education for Women (Deemed University), Coimbatore and Tamil Nadu Agricultural University, Coimbatore for providing library facilities for the reference work.

The investigator wishes to convey her sincere thanks to M/s Parvathy DTP Point, Coimbatore for the laser printing work of the thesis.

Above all, the investigator is grateful to God Almighty for His abundant blessings for the successful completion of the work.
