Summary	i
Acknowledgements	vii
CHAPTER I	
INTRODUCTION AND OBJECTIVES	1
1.1. INTRODUCTION	1
1.2. Studies in India	3
1.3. Nilgiri Biosphere Reserve	4
1.3.1. Studies in the NBR	4
1.4. OBJECTIVES	5
CHAPTER II	
STUDY AREA	7
2.1. Topography	7
2.2. Geology	7
2.3. Climate	9
2.4. Flora	9
2.5. Fauna	10
2.6. Vegetation	10
2.6.1. Wet evergreen forests	11
2.6.2. Moist deciduous forests	12
2.6.3. Dry deciduous forests	12
2.7. Water resources	13
2.8. Tribals	13
2.9. Study sites	15
2.10. Tribal groups studied	16
CHAPTER III	
ETHNOMEDICINE	19
3.1. INTRODUCTION	19
3.2. METHODS	21
3.2.1. Review of ethnomedicinal information	21
3.2.2. Utilization of medicinal plants	21
3.2.3. Phytochemical screening	22
3.3. RESULTS	23
3.3.1. Existing information	23
3.3.2. Ethnomedicinal plants	23
3.3.3. Most commonly used ethnomedicinal plants	25
3.3.4. Phytochemical screening	31
3.4. DISCUSSION	33
3.4.1. Ethnobotanical knowledge	33
3.4.2. Preparation of medicine	34
3.4.3. Commonly used medicinal plants	35
3.4.4. Sources of medicinal plants	36
3.4.5. Phytochemical screening	37
3.5. SUMMARY	39

CHAPTER IV

STATUS AND DISTRIBUTION OF MEDICINAL PLANTS	41
4.1. INTRODUCTION	41
4.1.1. Study sites	42
4.2. METHODS AND ANALYSES	42
4.2.1. Density and distribution of medicinal plants	42
4.2.2. Size class distribution of medicinal plants	45
4.2.3. Regeneration of medicinal plants	45
4.3. RESULTS	46
4.3.1. Phytosociology of medicinal plants in the NBR	46
4.3.1.1. Species diversity index	46
4.3.1.2. Species richness	46
4.3.1.3. Density	47
4.3.2. Moist deciduous forests	49
4.3.2.1. Trees	49
4.3.2.2. Shrubs	51
4.3.2.3. Herbs	51
4.3.2.4. Regeneration	52
4.3.3. Dry deciduous forests	60
4.3.3.1. Trees	60
4.3.3.2. Shrubs	63
4.3.3.3. Herbs	66
4.3.3.4. Regeneration	66
4.3.4. Riverine forests	73
4.3.4.1. Trees	73
4.3.4.2. Shrubs	75
4.3.4.3. Herbs	75
4.3.4.4. Regeneration	76
4.3.5. Teak plantations	82
4.3.5.1. Trees	82
4.3.5.2. Shrubs	84
4.3.5.3. Herbs	85
4.3.5.4. Regeneration	86
4.3.6. Endemic medicinal plants and their status in the NBR ..	90
4.4. DISCUSSION	92
4.4.1. Forest structure and composition	92
4.4.2. Conservation priority for habitats	93
4.4.3. Conservation priority for species	94
4.4.4. Status of endemic medicinal plants	97
4.4.5. Regeneration status of medicinal plants	98
4.5. SUMMARY	102

CHAPTER V

COMMERCIAL EXPLOITATION OF MEDICINAL PLANTS	104
5.1. INTRODUCTION	104
5.1.1. Impact of commercial harvesting on plant population .	104
5.2. METHODS	107
5.2.1. Commercial exploitation	107
5.2.2. Autecology	107
5.2.3. Impact of extraction	108
5.3. RESULTS	108
5.3.1. Commercial utilization	108
5.3.2. Plants sold in the local market	112
5.3.3. Autecology of medicinal plants	115
5.3.4. Impact of extraction on medicinal plant populations . .	140
5.3.4.1. Trees	140
5.3.4.2. Shrubs	144
5.3.4.3. Herbs	144
5.3.4.4. Regeneration	147
5.3.5. Status of commercially exploited medicinal plants . . .	147
5.3.5.1. Trees	147
5.3.5.2. Shrubs	148
5.3.5.3. Herbs	148
5.3.5.4. Regeneration	150
5.4. DISCUSSION	154
5.4.1. Commercial extraction	154
5.4.2. Destructive extraction	157
5.4.3. Distribution	160
5.4.4. Status of commercially exploited medicinal plants . . .	160
5.4.5. Other human impacts	162
5.5. SUMMARY	164

CHAPTER VI

IMPACT OF FIRE ON MEDICINAL PLANTS	165
6.1. INTRODUCTION	165
6.2. METHODS AND ANALYSES	167
6.3. RESULTS	168
6.3.1. Forest structure and composition	168
6.3.2. Trees	169
6.3.2.1. Species diversity and richness	169
6.3.2.2. Size class distribution	170

6.3.2.3. Density	173
6.3.2.4. Basal area	173
6.3.2.5. Importance Value Index	176
6.3.3. Shrubs	176
6.3.3.1. Species diversity and richness	176
6.3.3.2. Density	177
6.3.4. Herbs	177
6.3.4.1. Species richness and diversity	177
6.3.4.2. Density	178
6.3.5. Regeneration of medicinal trees	180
6.3.5.1. Seedlings	180
6.3.5.2. Saplings	180
6.4. DISCUSSION	183
6.4.1. Impact of fire on species richness, diversity and density	184
6.4.2. Impact of fire on regeneration	185
6.4.3. Impact of human activities	187
6.5. SUMMARY	188

CHAPTER VII

MEASURES FOR CONSERVATION OF MEDICINAL PLANTS . . .	190
7.1. Introduction	190
7.2. Measures for conservation of medicinal plants	191
7.2.1. Guidelines for management	191
7.2.2. Management oriented research	193
REFERENCES	197
APPENDICES	227
