ABSTRACT

LIST OF TABLES ix

LIST OF FIGURES AND PHOTOGRAPHS xi

LIST OF ABBREVIATIONS xiii

LIST OF GRAPHS xiv

PUBLICATION DETAILS xv

Chapter 1 INTRODUCTION 1

1.1 General 1

1.2 Objectives of the study 3

1.3 Methodology 4

1.4 Study area and data collection 6

1.4.1 Location of the study area aspects 6

1.4.2 Data collection 11

1.4.3 Drainage system 11

1.4.4 Subdivisions of the basin 14

Chapter 2 STATE OF THE ART AND LITERATURE SURVEY 19

Chapter 3 GEOLOGICAL FEATURES OF CHITRAVATHI BASIN 26

3.1 Introduction 26
3.2 Methodology

3.3 Geology of Chitravathi basin

3.3.1 Archaens

3.3.2 The Pre-Cambraian sedimentary rocks

3.3.3 Recent Formations

3.4 Geomorphological features

3.4.1 The general topography

3.4.2 The geomorphological setting

3.4.3 Landforms

Chapter 4 MORPHOMETRICAL FEATURES OF CHITRAVATHI BASIN

4.1 Morphometry

4.1.1 Drainage basin analysis

4.1.2 Methods of stream ordering

4.2 Methodology

4.2.1 Bifurcation ratios (Rb)

4.2.2 Mean segment lengths and stream length ratios

4.2.3 Degree of dissection

4.3 Shape aspects of the basin

4.4 Relief of the basin

4.4.1 Relief map

4.4.2 Relief ratios
Chapter 5  SURFACE WATER RESOURCES

5.1 Introduction

5.2 Focus on the problem

5.3 The drainage basin and its hydrological characteristics

5.4 Methodology

5.5 Average annual rainfall

5.6 Water yield in Chitravathi basin

5.7 Yield equation based on regression analysis
   5.7.1 General
   5.7.2 Use of regression analysis for the study
   5.7.3 Data
   5.7.4 Procedure
   5.7.5 Validation of the equation

5.8 Surface water balance in Chitravathi basin

5.9 Summary

Chapter 6  GROUND WATER AND ITS QUALITY

6.1 Introduction
6.2 The advantage of ground water
6.3 Aquifer characteristics in Chitravathi basin
6.4 Ground water conditions in various formations
   6.4.1 Ground water conditions in granites and granitic gneisses
   6.4.2 Ground water in Dharwar formations
   6.4.3 Ground water in sedimentary rocks and quartzites
   6.4.4 Ground water in the recent formations
6.5 Ground water potential and utilization
6.6 Fluctuations of water table in Chitravathi basin
6.7 Ground water analysis
   6.7.1 Total Dissolved Solids (TDS)
   6.7.2 Hardness
   6.7.3 Chlorides
   6.7.4 Flouride
   6.7.5 Specific Electrical Conductance (Salinity)
   6.7.6 Acidity and Alkalinity in the ground water ($p^H$)
6.8 Summary

Chapter 7 LAND AND WATER MANAGEMENT

7.1 General
7.2 Land utilization in Chitravathi basin
7.3 Soil erosion in Chitravathi basin
7.4 Soil and water conservation in Chitravathi basin

7.4.1 Soil conservation 140

7.4.2 Water conservation 141

7.5 Field visits 148

Chapter 8 SUMMARY AND CONCLUSIONS 151

8.1 Summary 151

8.2 Conclusions 152

8.3 Scope for further study 153

REFERENCES 154

APPENDICES

I Average annual rainfall at different raingauge stations falling in a particular sub basin 164

II. Monthwise rainfall data at different raingauge stations from 1996 to 2005 165

III. Monthwise rainfall and water table depths 186

IV Year wise maximum and minimum water table depths at various locations 190
