ACKNOWLEDGEMENT

The author is pleased to express his deep sense of gratitude and immense thanks to Dr. P. Shanmugam, Professor and Head of the Department of Chemistry, Madras University Autonomous Post-graduate Centre, Coimbatore for initiating him into the field of 'Photo Organic Chemistry' and also actively guiding him throughout the course of the present investigations.

He feels very much indebted to i) Dr. S. Rajappa, CIBA-GEIGY Research Centre, Bombay, ii) Dr. P.K. Thamburaj and Dr. T.K. Thiruvengadam, U.S.A., iii) Dr. H.R. Subbaram, Regional Research Laboratory, Hyderabad and iv) Dr. P. Ananthakrishna Nadar, V.H.N.S.N. College, Virudhunagar for the spectral and analytical data.

He thanks Dr. K. Ramarajan profusely for his help in the interpretation of a number of N.M.R. spectra.

He wishes to place on record his appreciation of the help rendered by Mr. V. Arisvaran and Mr. M. Ramesh in the preparation of this thesis.

He thanks Mr. K. Paramasivam for his help during the early stages of this work, Mr. S.P. Rajendran for the technical assistance and Mr. K. Purushothaman for the typing.

Finally, he thanks the University Grants Commission for a generous Teacher Fellowship and the Director of Collegiate Education, Government of Tamil Nadu for the leave facilities.
