ACKNOWLEDGEMENT

The author is very grateful to her guide Dr. R. Anitha, Associate Professor, Department of Mathematics and Computer Applications, PSG College of Technology, Coimbatore, for her inspiring guidance, constant encouragement and constructive suggestions throughout this research work. The motivation rendered by her in choosing the present work and her full fledged support for completion of this research work needs special mention.

The author expresses her sincere thanks to Dr. R. Nadarajan, Professor and Head, Department of Mathematics and Computer Applications, PSG College of Technology, Coimbatore, for his valuable suggestions and encouragement to carry out this work successfully.

The author expresses her sincere and heartfelt thanks to Dr. R. Rudramoorthy, Principal, Dr.P.Radhakrishnan and Dr. S. Vijayarangan, former Principals, PSG College of Technology and Polytechnic College and the esteemed Management of the PSG Institutions for having kindly permitted her to carry on the research work and for their kind and generous offer of all facilities in the college to complete this programme.

The author wishes to express her sincere thanks and heartfelt gratitude to Prof. S. Arumugam, Director, n-CARDMATH, Kalasalingam University, Krishnankoil, for his encouragement and valuable discussions to carry out this work successfully.

The author wishes her deep sense of appreciation and thanks to her colleagues Dr. C. Porkodi and Ms. S. Anandhi, for useful discussions and interactions on this research work. The author wishes to thank all staff members of the Department of Mathematics and Computer Applications, PSG College of Technology, Coimbatore, for their help towards this research work.

The author owes her deepest gratitude to her parents and family members for their constant love and support throughout her study of this research work.
