ACKNOWLEDGEMENT

“The Lord shall make thee the head, and not the tail. Deut.28:13”

With bountiful humbleness, I thank “Almighty God” for bestowing me a supportive family, an affectionate husband, Mr. Marpe Riba, Circle Officer (SDM-APCS) and a loving son, Master Pedo Mido Riba whose extreme support, love and sacrifice is inexplicable which enabled me to pursue and accomplish this Doctoral programme.

The insuperable contribution and peer support rendered by my adorable, debonair, dynamic and revered major advisor, Dr. H.K. Chaudhary, Professor & Incharge, Molecular Cytogenetics & Tissue Culture Lab, Department of Crop Improvement is incomprehensible. He enthused inexhaustible inspiration, volition and constructive criticism for generating vital, valuable and innovative ideas for the execution of the present endeavour. I will remain indebted to him for pruning my personality and giving new dimension in the scientific field through his analytical scientific outlook for bringing revolution in agriculture sector. He has become a role model for all the research scholars. I salute his great wisdom and personality.

I emphatically extend my sincere thanks to the worthy members of my advisory committee, Dr. R.K. Chahota (Associate Professor), Dr.A.S. Kapoor (Professor), Dr. D. Badiyala (Professor) and Dr. Usha Rana (Assistant Scientist) for their valuable suggestions and tremendous cooperation during the course of the investigation and preparation of this manuscript. I am deeply obliged to Dr. B.C. Sood, Head, Department of Crop Improvement, for his incessant support during the investigation.

The commendable contribution made by Prof. Yasuhiko Mukai, a world renowned Molecular Cytogeneticist is beyond description. He provided me a golden opportunity as Visiting Fellow for one month in his esteemed Lab of Plant Molecular Genetics, Osaka Kyoiku University, Osaka, Japan and extended abundant facilities to execute cross-sectional studies and learn technical knowhow in respect of various novel tools of Molecular Cytogenetics. No expression of thanks will be sufficient without recognition of help and support rendered by Prof. Maki Yamamoto, Dr. Go Suzuki, and Mr. Takkemoto and other students during my stay at OKU, Japan.

I acknowledge support of my advisor and Dr. Xueyong Zhang, Organising Secretary, 4th Asian Chromosome Colloquium (ACC), which made it possible for me to participate in the 4th ACC and interact with globally renowned molecular breeders, geneticists and cytogeneticists at an international forum w.e.f. 11-14 Oct., 2010 at Beijing, China.
I owe my grateful thanks to my parent Institute, Central Agricultural University, Imphal for granting study leave to pursue PhD programme and all my colleagues & staff of the College of Horticulture & Forestry, Pasighat for their support, cooperation and help during the course of this study.

I am also highly beholden to Prof. J.C. Bhandari, Dr Naval Kishore, other scientists and seniors of the Department of Crop Improvement for their inspiration, guidance and encouragement for facilitating the present research investigation.

I express my gratitude to Dr. Tej Pratap, former VC and Dr. S.K. Sharma, present VC, CSKHP Agricultural University, for their notable encouragement & indispensable support at various occasions. I also owe my grateful thanks to the Dean, Post Graduate Studies, CSKHP Agricultural University, Palampur for providing me the necessary facilities to complete this study.

I shall cherish the sweet memories of Dr. Parveen Lata mam, Yashdeep, Jaya and all the members of Chaudhary family for their continuous support, encouragement and also for providing me a homely environment during my stay at Palampur.

I am also extremely grateful to my parents, family members and relatives especially Achi Moba, Nete, Pakte, Ojum, Opi, Ongku and Neh for their moral support and constant inspiration which enabled me to complete this study successfully.

My special thanks are also due to all my loving and beloved juniors – Dr. Samuel, Vineeta, Anila, Arpana, Indu, Khurseed, Shaukat Ahmed, Rajeev, Kapil and others whom I have not mentioned. Last but not least my hats off to my and only friend Kiran and her whole family for rendering me help and support during my stay at Palampur.

I also extend my sincere thanks to the staff members viz., Vinod Sharma, Sachin Malhotra, Kishori, Suresh, Raj Kumar and Sunil of Molecular Cytogenetics & Tissue Culture Lab, Office Staffs specially Shri Pyaar Chand and field members of the Deptt. of Crop Improvement, for their friendly approach and cooperation. I am also thankful to Mr. Ajay Walia for typing the manuscript timely.

Needless to say, all errors and omissions are mine.

Place: Palampur (Tisu Tayeng)
