</table>
5.10 Significant difference of the Pre test and Post test scores on the achievement of the Experimental Group.

5.11 Significant difference of the Pre test and Post test scores on the achievement of the Experimental Group in terms of Learning Objectives.

5.12 Pre-test and Post-test analysis of the Experimental group with reference to Sex, Educational Qualification of the Teachers, Experience of the Teachers, Parental Education, Parents’ Profession, Parents’ Income, Type of Management and Type of School

5.13 Significant difference of the Control Group and Experimental Group on the Gain scores

5.14 Significant difference of the Control Group and Experimental Group on the Gain Score in terms of Learning Objectives

5.15 Significant difference of the boys of the Control Group and Experimental Group on the Gain Score in total scores

5.16 Significant difference on the Gain Score among the boys of the Control Group and Experimental Group in terms of Learning Objectives

5.17 Significant difference of the Girls of the Control Group and Experimental Group on the Gain Score in total scores

5.18 Significant difference on the Gain Score of the Girls of the Control Group and Experimental Group in terms of Learning Objectives

5.19 Significant difference of the students of the Control Group and Experimental Group with respect to the Educational Qualification of the Teachers on the Gain Score in total scores

5.20 Significant difference of the students of the Control Group and Experimental Group on the Gain Score in terms of Learning Objectives taught by the teachers possessing Higher secondary and DTE

5.21 Significant difference of the students of Control Group and Experimental Group with respect to the Educational Qualification of the Teacher on the Gain Score
5.22 Significant difference on the Gain Score of the students of the Control Group and Experimental Group in terms of Learning Objectives with respect to the qualification of the teachers' experience.

5.23 Significant difference due to the Experience of the Teachers whose total service is less than 10 years among the students of the Control Group and Experimental Group on the Gain Score in total scores.

5.24 Significant difference on the Gain Score of students of Control Group and Experimental Group whose teachers have less than 10 years of experience in terms of Learning Objectives.

5.25 Significant difference of the students of the Control Group and Experimental Group on the Gain Score in total scores, when teachers have more than 10 years experience.

5.26 Significant difference of the students of the Control Group and Experimental Group on the Gain Score in terms of Learning Objectives when teachers have more than 10 years experience.

5.27 Significant difference of the Control Group and Experimental Group on the Gain Score in total scores whose Parental Education is up to Primary School.

5.28 Significant difference of the Control Group and Experimental Group on the Gain Score in terms of Learning Objectives of the students, when parental education is up to primary.

5.29 Significant difference of the Control Group and Experimental Group on the Gain Score of the students with parental education is more than primary.

5.30 Significant difference of the Control Group and Experimental Group on the Gain Score in terms of Learning Objectives of the students whose parental education is more than Primary education.

5.31 Significant difference on the Gain Score of the Students of Employed Parents of Control Group and Experimental Group.

5.32 Significant difference of the Control Group and Experimental Group on the Gain Score in terms of Learning Objectives of the students when Parents are Employed.
5.33 Significant difference of the Control Group and Experimental Group on the Gain Score in total scores whose parents are self-employed

5.34 Significant difference of the Control Group and Experimental Group on the Gain Score in terms of Learning Objectives of the students whose Parents are Employed

5.35 Significant difference of the Control Group and Experimental Group on the Gain Score in total scores whose Parents' Income is less than Rs.12,000/- per annum

5.36 Significant difference of the Control Group and Experimental Group on the Gain Score in terms of Learning Objectives of the students whose Parents' Income is less than Rs.12,000/- per annum

5.37 Significant difference of the Control Group and Experimental Group on the Gain Score in total scores whose Parents' Income is more than Rs.12,000/- per annum

5.38 Significant difference of the Control Group and Experimental Group on the Gain Score with respect to the Learning Objectives of the students whose parental income is more than Rs.12,000/- per annum

5.39 Significant difference on the gain score between the PU School students of Control Group and Experimental Group

5.40 Significant difference on the gain score between the students of PU schools of the Control Group and Experimental Group

5.41 Significant difference on the gain score between the Aided School students of Control Group and Experimental Group

5.42 Significant difference on the gain score between the students of PU schools of the Control Group and Experimental Group

5.43 Significant difference on the gain score between the Primary School students of Control Group and Experimental Group

5.44 Significant difference on the gain score between the students of Primary schools of the Control Group and Experimental Group

5.45 Significant difference on the gain score between the Middle School students of Control Group and Experimental Group
5.46 Significant difference on the gain score between the students of Middle schools of the Control Group and Experimental Group

5.47 Correlation between the Pre-test and the Post-test Total Scores of the Control Group

5.48 Correlation between the Pre-test and the Post-test of the Control Group in terms of Learning Objectives

5.49 Correlation between the Pre-test and the Post-test of the Control Group with reference to Sex, Educational Qualification of the Teacher, Experience of the Teacher, Parental Education, Parents' Profession, Parents' Income, Type of Management and Type of School

5.50 Correlation between Pre-test and Post test Total Scores of the Experimental Group

5.51 Correlation between the Pre-test and the Post-test of the Experimental Group in terms of Learning Objectives

5.52 Correlation between the Pre-test and the Post-test of the Experimental Group with reference to Sex, Educational Qualification of the Teacher, Experience of the Teachers, Parental Education, Parents' Profession, Parents' Income, Type of Management and Type of School

6.1. The Schematic Representation of Experimental Research
