Contents
CHAPTER 1 TEA INDUSTRY- A PERSPECTIVE

Introduction Section–A. Tea industry–macro perspective-origin of tea, cultivation of tea, global scenario, area, production, consumption, export, price, tea industry in India, cultivation of tea, production of tea in India, production process, small tea growers, private bought leaf factories in India, private bought leaf factories in Tamil Nadu, district wise tea production in Tamil Nadu, spatial distribution of tea in Nilgiris. Section-B Tea industry—a micro perspective, district profile, agro ecology, cropping pattern, private bought leaf factories in Nilgiris, review of literature, the present study.

CHAPTER 2 DESIGN AND EXECUTION OF THE STUDY

Introduction, importance of study, objectives of the study, hypothesis, methodology sampling procedure, selection of INDCO tea factories, selection of taluks, selection of villages, selection of respondents, tools used for collection of data, data base, filed work, framework of analysis, operational definitions, pilot study, limitations of the study, organization of chapters.

CHAPTER 3 PERFORMANCE OF INDCO TEA FACTORIES

Introduction, background and origin of INDCO tea factories, organization pattern, objectives, age of the INDCO tea factories, membership, capital structure, owned fund, share capital, reserves borrowed funds, deposits, borrowings, working capital, function of INDCO tea factories, input supply, purchase of green leaves, green leaves collection at procurement centers, raw material and quality, seasonal arrival of green leaves, seasonal variation, production of made tea, methods of manufacture, processing functions, withering, rolling, fermentation, drying, grading, packing, marketing of tea, electronic auction system, price realization for made tea, price fixation for green leaves of members, payment to members, performance of INDCO tea factories, management and administration, cost of establishment and contingencies, other services, small tea grower production scheme, family insurance scheme, a sum up.

CHAPTER 4 DIMENSIONS OF CAPACITY UTILIZATION, PRODUCTIVITY, COST OF PRODUCTION, PRICE REALISED BY MEMBERS AND PROFITABILITY

Introduction, installed capacity, estimation of capacity utilization, idle time and idle capacity, purchase of green leaves, productivity, factory wise comparison of productivity level, productivity of INDCO tea factories category- wise, cost of production, components of cost price realized by members, profitability, a sum up.
CHAPTER 5 ANALYSIS OF VARIANCE AND INTER RELATIONSHIP AMONG THE VARIABLES 88-113

Introduction Section-A variables, frame work of variance analysis, capacity utilization and a set of independent variables, productivity and a set of independent variables, cost of production and a set of independent variables, price realized by members and a set of independent variables. Section-B Multi-categorization of INDCO tea factories, a sum up.

CHAPTER 6 SOCIO-ECONOMIC PROFILE AND MARKETING PRACTICES OF SMALL TEA GROWERS 114-135

Introduction, tea cultivation, profile of the respondents, demographic profile, economic profile extent of utilization of input services, awareness about QUP, beneficiaries of QUP, extent of special purpose tea fund availed by the respondents, farm guidance and utilization of services, production of green leaves, marketing of green leaves, procurement sheds, prices of green leaves, seasonal pattern and supply behavior of small tea growers, membership of INDCO tea factory, selection of marketing agency by the respondents, a sum up.

CHAPTER 7 FINDINGS, SUGGESTIONS AND CONCLUSION 136-157

Introduction, scope and methodology of the study, general performance or INDCO tea factories, business performance of INDCO tea factories, dimensions of capacity utilization, productivity, cost of production, price realized by members and profitability, analysis of variance, production and marketing practices of small tea growers, conclusion, suggestions, coverage of more members, increasing proportion of active membership, opening new procurement centres, additional through capacity, inter linkage or tie up arrangement among the INDCO tea factories, institutional for advisory and extension services, development loan for pruning, re-plantation and subsidies, quality of green leaves, economy of size, modernization, cost reduction measures, enhancing productivity

Bibliography

Appendices

A. Tables ix-xl
B. Questionnaire Schedule for the INDCO tea factories xli-l
C. Interview Schedule for small tea growers li-lvii
D. Grades of made tea lviii-lix
