I gratefully acknowledge my research advisor Dr. Hazoor Singh, Associate Professor, Yadavindra College of Engineering, Punjabi University Guru Kashi Campus, Talwandi Sabo for introducing me into this fascinating world of corrosion. His inspiring discussions, valuable inputs, continued encouragement, profound knowledge pooled with amiable nature have been immensely helpful to me. He has been an inspiring and driving force wherever the targets appeared to be difficult during the course of work.

The author feels a sense of privilege and pleasure to express his gratitude to his advisor Dr. Buta Singh Sidhu, Dean Academics, Punjab Technical University, Jalandhar for his intellectual guidance and untiring efforts throughout the tenure of this work. His insight to the field of thermal spray coatings is second to none. His timely help, constructive criticism and painstaking efforts made the author capable of compiling the thesis in its present form.

The author is highly grateful to Dr. Satya Prakash, Department of Metallurgical and Materials Engineering, Indian Institute of Technology Roorkee, Roorkee and Dr. Harpreet Singh, Assistant Professor, Indian Institute of Technology Ropar, Rupnagar for their constant encouragement, valuable guidance and support throughout the work.

I am very grateful to the authorities of Punjabi University, Patiala, in particular Dr. J.S. Khamba, Head, University College of Engineering for their encouragement and cooperation in researching this thesis.

I wish to thank the authorities of Metallizing Equipment Company Pvt. Ltd, Jodhpur for their enthusiasm and tremendous support in providing the facilities and guidance to spray the samples in this work, without which this thesis would not have been possible.

The author is immensely grateful to the authorities of Giani Zial Singh College of Engineering and Technology, Bathinda for extending their support and facilities for carry out the research. The author wishes to thank the authorities of Guru Nanak Dev Thermal Power Plant, Bathinda (Punjab) for their extended help and support to carry out the experimentation work at the plant.
I express thanks to the staff of Institute Instrumentation Centre, Indian Institute of Technology Roorkee, Roorkee, in particular to Mr. S.D. Sharma and Mr. Shiv Kumar for extending their support to perform XRD, FE-SEM/EDS and X-ray mapping analysis. I would also like to thank Ms. Narinder Kaur and Mr. Amit Kumar of Indian Institute of Technology Ropar, Rupnagar for extending their support to analyse the samples by SEM and XRD.

Author is highly obliged and wishes to owe his sincere thanks to his friends and colleagues for their moral support and camaraderie help to keep things in perspective. On a personal level, I am grateful to my parents and family who, along with unconditional love and support, installed in me values and ethics that will serve me well throughout life. Finally, and most importantly, I thank my wife Loveleen for her assistance, understanding, and unbound love while I undertook this endeavor.

The author feels a sense of apology to his lovable son, who missed upon his love and care during the work. Above all, author is highly indebted to Great and Gracious Almighty God who blessed him with spiritual support and fortitude at each and every stage of this work.

(Sukhpal Singh Chatha)
