ACKNOWLEDGEMENTS

It is a pleasure to record a sense of life-time gratitude to Dr. K.S.R. Anjaneyulu, Professor of Electrical Engineering and OSD, JNTUA College of Engineering, Ananthapuramu, whose help with utmost concern and guidance were of immense value throughout this research work. The author is also deeply grateful to him for his directions with love, laced with friendship and embedded with constructive criticism.

Particular thanks are expressed to Dr. P. Sujatha, Professor & Head of the department, Department of Electrical Engineering, JNTUA College of Engineering, Ananthapuramu, for valuable suggestions, encouragement and support. I am also thankful to the members of my Ph.D. committee and professors in the department for their suggestions in shaping of my work.

The author is highly indebted to JNTUH, Hyderabad and JNTUA, Ananthapuramu for permitting to do this work with the available facilities. The author also wishes to express thanks to the authorities of Narayana Engineering College, Nellore and Chaitanya Bharathi Institute of Technology, Gandipet, Hyderabad for extending help throughout this investigation.

A special appreciation goes to my mother, father, wife, son and my well wishers for their constant support to complete this work.

T. MURALI KRISHNA
