

LIST OF GRAPHS

Figure No.	Description	Page No.
Graph 1.	The Semantic Differential Profiles of the High and Low Motivation Group with regard to their attributing meanings to the concept Variety.	105
Graph 2.	The Semantic Differential Profiles of the High and Low Motivation Group with regard to their attributing meanings to the concept Availability of Money.	106
Graph 3.	The Semantic Differential Profiles of the High and Low Motivation Group with regard to their attributing meanings to the concept Physical Security.	107
Graph 4.	The Semantic Differential Profiles of the High and Low Motivation Group with regard to their attributing meanings to the concept Environmental Clarity.	108
Graph 5.	The Semantic Differential Profiles of the High and Low Motivation Group with regard to their attributing meanings to the concept Confidence in Coping.	109
Graph 6.	The Semantic Differential Profiles of the High and Low Motivation Group with regard to their attributing meanings to the concept Adequacy of Social Contacts.	110
Graph 7.	The Semantic Differential Profiles of the High and Low Motivation Group with regard to their attributing meanings to the concept Family Group Support.	111
Graph 8.	The Semantic Differential Profiles of the High and Low Motivation Group with regard to their attributing meanings to the concept Deficiency in Social Contacts.	112
Graph 9.	The Semantic Differential Profiles of the High and Low Motivation Group with regard to their attributing meanings to the concept General Well-being Positive Affect.	113

Figure No.	Description	Page No.
Graph 10.	Linear Graph showing relative position of the Discriminant Scores in the comparison of High Motivation Group and Low Motivation Group on thirty Semantic Differential Concepts	116
Graph 11.	The Semantic Differential Profiles of the High and Low Probabilistic Orientation Group with regard to their attributing meanings to the concept Employment.	119
Graph 12.	The Semantic Differential Profiles of the High and Low Probabilistic Orientation Group with regard to their attributing meanings to the concept Self-Employment.	120
Graph 13.	The Semantic Differential Profiles of the High and Low Probabilistic Orientation Group with regard to their attributing meanings to the concept Social Support.	121
Graph 14.	The Semantic Differential Profiles of the High and Low Probabilistic Orientation Group with regard to their attributing meanings to the concept Expectation Achievement Congruence.	122
Graph 15.	The Semantic Differential Profiles of the High and Low Probabilistic Orientation Group with regard to their attributing meanings to the concept Primary Group Concern.	123
Graph 16.	Linear Graph showing relative position of the Discriminant Scores in the comparison of High Probabilistic Orientation Group and Low Probabilistic Orientation Group on thirty Semantic Differential Concepts.	126
