ACKNOWLEDGEMENTS

The work for the present thesis was carried out under the guidance of Dr. R. Manavalaramanujam, Department of Zoology, Bharathiar University to whom I am grateful for suggesting the problem, helpful discussions and keen interest in this work.

My thanks are due to Prof. C. Sundara Rajulu, Head of the Department of Zoology, Bharathiar University, for various help rendered during the course of this study.

I am indebted to Professor Dr. S. C. Saxena, Rajasthan University, India, Professor Dr. Takeo Tedano, St. Marianna University, Kawasaki, Japan, Professor Dr. James R. Busvine, London School of Hygiene and Tropical Medicine, Maidenhead, U.K., for critically reading through various portions of the manuscript of this thesis and for many helpful suggestions.

My thanks are due to Prof. M. Aruchami, Principal, Kongunadu Arts and Science College, Coimbatore for the permission to undertake the present investigation.
I would like to express my indebtedness to my colleagues Thiru K. Krishnamoorthy, Thiru K. Matarajan, Thiru N. Faswaran and Dr. K. Krishnasamy, Assistant Professors, Kongunadu Arts and Science College, for their help at various stages of my research work.

The service rendered by Thiru M. Ramalingan, Assistant Professor of Zoology, Government Arts College, Ooty and Thiru P. Krishnan, Bharathiar University is hereby acknowledged.

Last but not least I express my loving appreciation to my wife and child for providing me a conducive domestic atmosphere all through the period of the present study.
