My journey to the Ph.D. work was joyful and exciting filled with many rich experiences in my entire life. I devote this section in acknowledging all those who supported me in this venture.

I started my work wondering around a large number of issues and problems related to the field of education particularly in the advent of the government policies initiated in favour of opening the engineering colleges in the self-financing stream. As a result of the mushrooming of new engineering colleges in the self-financing stream, problems of multidimensional forms emerged in the field of technical education and I failed to focus on any particular problem. It was my supervising guide Dr. George Varghese who directed me to the probable issue of unemployment that could emerge as a result of the sanction of new colleges. My supervising guide even after his retirement from service has been a great source of inspiration all through my work and with all patience necessarily guided me on time by sparing his precious and valuable time assisting me in the completion of my work. His guidance has been very helpful in giving me the right focus required for my work. I extend my boundless gratitude and respect to my supervising guide Dr. George Varghese for his blessings, kindness and all supports in making possible this Ph.D. Thesis.

I still remember the time when being engaged in my routine work of teaching, I failed to experience the richness and thrill of research. It was then I happen to meet and discus with Dr. Sabu Thomas then a Post Doctoral Fellow in the Dept. of Applied Economics and now presently the Project Co-ordinator, K M Mani Center for Budget Studies, CUSAT, Kochi. The interaction with Dr. Sabu Thomas was the first initiative in my research by registering for the Ph.D. It was Dr. Sabu Thomas who provided me necessary information and timely guided me right from the selection of the topic of my research to the completion of my entire Ph.D. Thesis. This project of mine would have been an unaccomplished dream without the support and assistance of Dr. Sabu Thomas. I,
sincerely acknowledge the favors and blessings received from Dr. Sabu Thomas and express my sincere gratitude to him.
