ACKNOWLEDGMENT

I am highly indebted to the managing Trustees and Office Bearers of CMS Educational and charitable trust for giving me a maximum support during the period of my research.

I take this opportunity to express my profound thanks to my guide and supervisor Dr. R. Rajkumar, Head, Department of Commerce, CMS college of Science and Commerce for his untiring help rendered from the beginning to till the end of my research activities. It is his timely advice, thought provoking discussion and meticulous care taken in correcting the rough draft of the thesis have all helped me to bring the project to the present shape.

I would like to express my heartfelt thanks to Dr. K. T. Varkey, Principal, CMS college of Science and Commerce for granting permission to pursue my Ph.D. Degree.

I am very much grateful to Dr. V. Radja ramane, Assistant Professor of Economics, Government Arts College, Coimbatore who has rendered a great help in carrying out my endeavour in the right perspective and without his inspiring advise and valuable suggestions in selecting and applying statistical tools the thesis would not have been completed.

I thank all my Colleagues from the bottom of my heart for their continuous moral support provided till the completion of my thesis.

I record my deep sense of gratitude to my beloved Wife and Daughters for their patience and moral and forbearance till the completion of my course work.

Last but not least, I thank the Almighty for His blessings which have provided me strength to complete the thesis.

N. RAJA
