

LIST OF TABLES

Table No.	Title	Page No.
1.	Split-half reliability coefficients of the eight scales of the POC	72
2.	The reliability coefficients of the POQ, WCQ, AQ and RCD	73
3.	The time taken (in mts) by the Ss to respond to the instruments in the pilot study	75
4.	The composition of the sample of individuals for the main study	77
5.	The composition of the sample of the individuals who participated in the investigation	78
6.	The age of the Ss in the sample	80
7.	The qualifications of the Ss in the sample	80
8.	The salary of the Ss in the sample	81
9.	The work experience of the Ss in the sample	82
10.	The mother tongue of the Ss in the sample	82
11.	The marital status of the Ss in the sample	83
12.	Intercorrelation between the dimension scores and the sum total score of the profile of organizational characteristics	84
13.	Stepwise regression analysis (contribution of the eight dimensions to total score)	86
14.	Test of significance in connection with the stepwise regression analysis (regression pertaining to the contribution of the eight dimensions to the total score)	87
14a.	The χ^2 for the observed and predicted scores of the profile of organizational characteristics	88
15.	The preliminary organizational characteristics profiles of the thirty organizations investigated	91

LIST OF TABLES (contd.)

Table No.	Title	Page No.
16.	The normatively standardized profiles of the organizational characteristics of the organizations investigated	92
17.	The ipsatively standardized profiles of the organizational characteristics of the organizations investigated	93
18.	The difference scores between the Ideal type and observed climate scores	95
19.	The ipsatively standardized scores of organizations belonging to system I	96
20.	The ipsatively standardized scores of organizations belonging to system II	97
21.	The ipsatively standardized scores of organizations belonging to system III	98
22.	The ipsatively standardized scores of organizations belonging to system IV	99
23.	The multiple comparisons of organizations belonging to system I	101
24.	The multiple comparisons of organizations belonging to system II	102
25.	The multiple comparisons of organizations belonging to system III	103
26.	The multiple comparisons of organizations belonging to system IV	104
27.	The multiple sample slippage test for system I	105
28.	The multiple sample slippage test for system II	106
29.	The multiple sample slippage test for system III	107
30.	The multiple sample slippage test for system IV	108
31.	The mean and SD for the scores on probabilistic orientation questionnaire	110

LIST OF TABLES (contd.)

Table No.	Title	Page No.
32.	ANOVA of the Ss from different systems on probabilistic orientation questionnaire.	110
33.	The mean and SD for the scores on work commitment questionnaire	111
34.	ANOVA of the Ss from different systems on work commitment questionnaire	112
35.	The mean and SD for the scores on alienation questionnaire	113
36.	ANOVA of the Ss from different systems on alienation questionnaire	113
36a.	HSD's of the Ss from different systems on alienation questionnaire	114
37.	The mean and SD for the scores on role conflict differential	115
38.	ANOVA of the Ss from different systems on role conflict differential	116
39.	The mean scores on probabilistic orientation questionnaire of the 30 organizations and their rank on probabilistic orientation	117
40.	χ^2 -Test for the association between system membership and probabilistic orientation	118
41.	The mean scores on work commitment questionnaire of the 30 organizations and their rank on work commitment	120
42.	χ^2 -Test for association between system membership on work commitment	121
43.	The mean scores on alienation questionnaire of the 30 organizations and their rank on alienation	123
44.	χ^2 -Test for association between system membership on alienation	124

LIST OF TABLES (contd.)

Table No.	Title	Page No.
45.	The mean scores on role conflict differential of the 30 organizations and their rank on role conflict	125
46.	χ^2 -Test for association between system membership on role conflict	126
47.	The intercorrelations between PO, WC, AQ & RC with the eight dimensions of profile of organizational characteristics	129
48.	Stepwise regression analysis (contribution of probabilistic orientation and the eight dimensions of profile of organizational characteristics	131
49.	Test of significance in connection with stepwise regression analysis (regression pertaining to the contribution of probabilistic orientation to the eight dimensions of the profile of organizational characteristics)	132
50.	Stepwise regression analysis (contribution of work commitment and the eight dimensions of profile of organizational characteristics)	133
51.	Test of significance in connection with stepwise regression analysis (regression pertaining to the contribution of work commitment and the eight dimensions of profile of organization characteristics)	134
52.	Stepwise regression analysis (contribution of Alienation and the eight dimensions of profile of organizational characteristics)	136
53.	Test of significance in connection with stepwise regression analysis (regression pertaining to the contribution of alienation and the eight dimensions of profile of organizational characteristics	137

LIST OF TABLES (contd.)

Table No.	Title	Page No.
54.	Stepwise regression analysis (contribution of role conflict to the eight dimensions of profile of organizational characteristics)	138
55.	Test of significance in connection with stepwise regression analysis (regression pertaining to the contribution of role conflict and the eight dimension of profile of organizational characteristics)	139
56.	The intercorrelations between each of the eight dimensions and POQ, WCQ, AQ and RCD.	140
57.	Stepwise regression analysis (regression pertaining to the contribution of the eight dimensions to the POQ, WCQ, AQ and RCD)	142
58.	Test of significance in connection with stepwise regression analysis (regression pertaining to the contribution of the eight dimensions and POQ, WCQ, AQ and RCD.	145
