ACKNOWLEDGEMENTS

I take this opportunity to thank Almighty God for instilling in me the strength, perseverance and spirit needed to accomplish this research work.

I express my whole hearted and sincere debt of gratitude to my esteemed guide Dr. Tarlok Singh Lobana, Professor, Department of Chemistry, Guru Nanak Dev University, Amritsar, for his ever inspiring guidance, constant encouragement and constructive criticism to complete my work. I am deeply indebted to him for his untiring efforts, unfailing interest, keen observation and constant motivation during the course of this research project.

I owe my thanks to the Heads of Department of Chemistry (Prof. Ishtiaque Ahmed and Prof. Subodh Kumar), Guru Nanak Dev University, Amritsar during this period for providing necessary research facilities. I am grateful to the nonteaching staff for their kind help and cooperation.

It is a great pleasure to extend my heartiest thanks to my dear friends, Razia Sultana, Dr. Rekha Sharma, Dr. Gagandeep Bawa, Dr. Sonia Khanna, Amanpreet Kaur and Shikha for their friendly cooperation and stand by in every moment of despair.

I bow my head to my respected Parents and Grant Parents for their generous support, positive attitude, invaluable blessings and untiring core for my bright future. The accomplishment of this project could have been very difficult without the support and companionship provided by my dear brothers Dr. Praveen and Pradeep to share happiness and provide moral support during difficult times.

(Poonam Kumari)
