Acknowledgements

It is a great pleasure for me to thank many people who made this thesis possible.

I would like to express my deep and sincere gratitude to my mentor Dr. Swapandeep Singh Chimni, Professor, Department of Chemistry, Guru Nanak Dev University, Amritsar. His wide knowledge and his logical way of thinking have been of great value for me. His understanding, encouraging and personal guidance have provided a good basis for the present thesis. His valuable contributions will always be treasured.

I was fortunate to work as research fellow for my Ph.D. degree in the same place from where I have received graduate and postgraduate degree in chemistry. I must acknowledge the Department of Chemistry, Guru Nanak Dev University and its faculty, which has been instrumental for my academic achievements. I am also thankful to non-teaching, library and technical staff, which have been wonderfully supportive throughout my academic career.

I warmly thank Dr. Harjit Singh, Professor Emeritus, Department of Chemistry, Guru Nanak Dev University, Amritsar for his valuable advice and friendly help.

My sincere thanks are due to Prof. Subodh Kumar, Head, Department of Chemistry, Guru Nanak Dev University, Amritsar for useful help whenever it was required.

I express my thanks to Dr. S. C. Taneja, Bioorganic division, IIIM Jammu and Dr. B. S. Chadha, Department of Microbiology, Guru Nanak Dev University, Amritsar for giving me the permission of using HPLC.

I wish to thank all my friends, laboratory colleagues and juniors for their co-operation and help, off and on the lab.

The financial support provided by CSIR, India as a Research Fellowship is gratefully acknowledged.

My humble gratitude must also be reserved for my parents, sister, brother and wife for their constant encouragement and appreciation to do the best. It is the untiring efforts and blessings of my parents, whatever I have achieved.

(Sarbjit Singh)
