Acknowledgements

“Whatever objective a man thinks in his mind and works in that direction, he is able to achieve the same…………………………………Rig Veda

With limitless humility, I am deeply indebted to “God”- The Almighty, the creator, the supreme power, the divine light, or whatever He is, who bestowed me with good health and courage enough to complete this task.

I avail this opportunity to extend my thanks to Prof. P.K. Khosla, Hon’ble Vice Chancellor, who established this University and opened the doors to the new researchers and is providing all required support and guidance to built their career. Help and assistance extended by Dr. Sunil Puri, Coordinator cum Dean Basic Sciences Cum Academic Affairs (Development and Extension), Shoolini University of Biotechnology and Management Sciences, Solan is highly acknowledged. I emphatically express my worthy and venerable thanks to Dr.Anuradha Sourirajan, Professor (Cell Cycle and Cancer Biology) and Dean, Department of Biotechnology for her indispensable suggestions at every step during the course of the investigation.

With an overwhelming sense of legitimate pride and genuine obligation, I seize this rare opportunity to express my deep sense of gratitude, indebtedness personal regard to my esteemed teacher and major advisor of my research guiding committee, Dr. Astha Tripathi, Assistant Professor (Microbiology), Department of Biotechnology, under whose supervision the present studies were carried out, for her unflinching guidance and incessant encouragement during the course of research and preparation of the manuscript.

I am grateful to Dr. A.S. Kashyap, Principal Scientist (Hort.) & Head retired and presently working as Senior Coordinator Projects in International Competence Center for Organic Agriculture Bangalore (India) for proposing this research topic for me. His wise counsel, valuable suggestions and constant interest throughout the present investigation is highly appreciated and acknowledged.

I emphatically express my worthy and venerable thanks to Dr. Sourabh Kulshrestha, Professor (Molecular Plant Microbe) and Dr. Adesh Saini, Associate Professor, Department of Biotechnology and members of my advisory committee for their constructive criticism in accomplishing this venture. Im grateful to Dr. Savita Jandaik, Assistant Professor, Department of Biotechnology for her flawless guidance and encouragement.

I render my whole hearted thanks to Dr. P.C. Sharma, Retired Professor and Associate dean, Department of Microbiology, Dr. D.R. Sharma, Professor of Eminence and retired Dean, Department of Biotechnology for providing me with impeccable help, expert guidance, ideological contribution and prized suggestions.

My cordial thanks are due to Dr. T.C. Bhalia, Professor and Head Biotechnology and Dr. Wamik Azmi, Assistant Professor, Biotechnology, HPU-Shimla for providing me necessary help whenever required during the entire research work.
I express my sincere and heartiest gratitudes to Dr. Y.R. Shukla, Principal Scientist, Vegetable crops, Dr. Ashok Thakur, Seed Technologist, Dr. D.D. Sharma, Principal Scientist (Hort.) and Dr. Upender Singh, SMS Soil Science - All faculty members of UHF Nauni and Mr. Anil Thakur for their invaluable suggestions during entire course of my study and preparation of manuscript.

Jovial company of my seniors Dr. Ruchi Chauhan, Rohina Choudhary, Pradeep Kumar, friends Poonam Dhillon, Neha Thakur, Sukrit Sagar and Shveta Singh and all other who morally boosted me to stride ahead in all adversities and hard times is duly acknowledged.

I am yet to find suitable words to express my heartiest gratitude to my loving father, mother, brother Aman Thakur and sister Hitika Thakur for their support in enabling me to accomplish my studies with success.

I am thankful to all the non-teaching staff, Mr. Babu ram, Mr. Dilip, Mr. Jai, Mr. Rakesh and Mr. Praveen for providing me the necessary lab assistance and cooperation during the study.

I solely claim all the responsibilities for the shortcomings and limitations in this work.
