ACKNOWLEDGEMENTS

I sincerely express my heartfelt respect and deep sense of gratitude to my research guide, Dr. Avinash Kamble, Department of Botany, University of Pune, for accepting me as a Ph.D. student and giving me opportunity to work under his guidance. I appreciate for his guidance, support, encouragement, motivation, care, understanding, inspiration and precious friendship.

I would like to express my sincere gratitude to my co-guide Prof. N. P. Malpathak for her moral support, valuable suggestions and encouragement during my research work.

I am thankful to Prof. S. S. Bhargava for providing necessary facilities during physiological work. I want to specially thank Dr. Abhijit Kulkarni and Mrs. Smruti Mital, Department of Biotechnology, University of Pune, for valuable suggestions and help during molecular work.

My sincere thanks also go to Prof. Dr. A. v. Tiedemann, Institute of Crop Sciences, Division of Plant Pathology and Plant Protection, Georg-August University, Goettingen, Germany who hosted me for a period of two months in his lab to do a part of molecular work as DAAD fellow. His scholastic guidance, motivation and inspiration boosted me to do the best.

I would also like to express my sincere thanks to Prof. A. K. Pradhan, department of genetics, University of Delhi, New
Delhi, India, who provided the Brassica cultivar as well as the Alternaria brassicae strain.

I gratefully acknowledge the financial assistance received from University Grant Commission (UGC), Meritorious Research fellowship of UGC, BCUD University of Pune and Departmental Research Grant of Department of Botany, University of Pune.

I would like to acknowledge the Heads of the Botany department, Pune University, Prof. Dr. V. R. Gunale and Prof. Dr. S. S. Deokule for allowing me to use the facilities at the department.

I am very much thankful to all non teaching staff and gardeners of Department of Botany, University of Pune.

I wish to thank my labmates Mangesh, Balkrishna, Sayantan, Praveen and Khalid for their help and creating a pleasant atmosphere for me here. I am grateful to my friends Digamber, Kanti, Mahesh, Mahindra, Rahul, Ram, Ravi, Balu, Supriya and Mahadev for all the fun times and constant help.

I can’t imagine my current position without the love and support from my family. I thank my parents for striving hard to provide a good education for me. I always fall short of words and felt impossible to describe their support in words. My education could never be accomplished without the endless support and care of my elder brothers Anil and Rupesh.
Finally, and most importantly, I express my heartfelt love to my wife Sumati for continuous support and patience during final stage of my research work.
