ACKNOWLEDGEMENT

The success of any endeavour depends a lot on the goals set at the onset as well as the constant guidance and motivation received throughout. I take this opportunity to express my deepest gratitude and appreciation towards all those who have helped me directly or indirectly towards the successful completion of this research work.

First and foremost, I would like to express my deepest appreciation and gratitude to my Research Supervisor, Dr. V. Udayashankara, Professor and Head, Department of Instrumentation Technology, Sri Jayachamarajendra College of Engineering, Mysuru and Scientist at the JSS Research Foundation for his continuous support and valuable advice through the doctoral course. The core of this work originated with his pioneering ideas in signal processing, which led me to a new research idea. This work could not have been accomplished without his direction. His professional attitude and great personality have made my period of research a highly rewarding and memorable experience. I have always been happy to carry out research with him.

I extend my sincere thanks to Dr. T. N. Nagabhushan, Chief Executive, JSS Research Foundation, SJCE campus, Mysuru, Dr. Syed Shakeeb Ur Rahman, Principal, Sri Jayachamarajendra College of Engineering, Mysuru, Dr. B. G. Sangameshwara, Joint Director(Technical), JSS Mahavidyapeetha, Mysuru, for providing excellent facilities and encouragement to carry out my research in this esteemed institution.

I express my sincere thanks to Dr. M. N. Shanmukhaswamy, Professor and Head, Department of Electronics and Communication, SJCE, Mysuru, who generously helped me with his counsels throughout my research work.

I am grateful to the Doctoral committee members, Dr. M.N. Shanmukhaswamy, Professor, Department of Electronics and Communication, SJCE, Mysuru, Dr. Sudarshan Patilulkarni, Professor, Department of Electronics and Communication, SJCE, Mysuru, Dr. K. T. Veeramanju, Professor and Head, Department of Electrical and Electronics, SJCE,
Mysuru, for all their helpful discussions, beneficial comments and suggestions during different stages of this research work.

Also I am grateful to my teacher Prof. V. Nattarasu, Associate Professor, Department of Electronics and Communication, SJCE, Mysuru, for his inspiration, kind suggestions, constant support and encouragement throughout the doctoral course.

I place on record my indebtedness to all the functionaries in the management of Sri Jayachamarajendra College of Engineering (SJCE), Mysuru, for their constant encouragement and excellent facilities extended to me.

I would like to thank all the teaching and non-teaching staff of the Department of Electronics and Communication, SJCE, Mysuru, and Department of Instrumentation Technology, SJCE, Mysuru, for the support and co-operation extended to me during the period of this research work.

I wish to acknowledge the moral support and encouragement of my beloved father Sri. T. Thotappa and mother Smt. Sarvamangala. I would like to place on record the affection, the moral support, co-operation, understanding and perseverance of my sisters, my brother in laws, my nephews Vrushank. M, Yajath. M, relatives, friends and all those who directly or indirectly helped me during the period of my research work.

SHREEKANTH. T
