

List of Tables

Sr.No	Title	Pg. No
3.1	Dependent and independent variables used in present study.	111
3.2	Sample selection procedure of the subjects as per the given table	116
3.3	showing the information regarding the sample and information sheets	132
4.1	Mean and their S.D. for community, education stream and gender context aggression	138
4.2	Difference between mean of community, education stream and gender context aggression	138
4.3	Summary of ANOVA (2×2×2) analysis of community, education stream and gender context aggression	139
4.4	Mean and their S.D. for community, education stream and gender context I physical aggression	143
4.5	Difference between mean of community, education stream and gender context physical physical aggression	144
4.6	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context physical physical aggression	144
4.7	Mean and their S.D. for community, education stream and gender context verbal aggression	149
4.8	Difference between mean of community, education stream and gender context verbal aggression	149
4.9	Summary of ANOVA (2×2×2) analysis of community, education stream and gender context verbal aggression	150
4.10	Mean and their S.D. for community, education stream and gender context angriness- aggression	154

Sr.No	Title	Pg. No
4.11	Difference between mean of community, education stream and gender context angriness- aggression	155
4.12	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context angriness- aggression	155
4.13	Mean and their S.D. for community, education stream and gender context enemy context- aggression	160
4.14	Difference between mean of community, education stream and gender context enemy context- aggression	160
4.15	: Summery of ANOVA (2×2×2) analysis of community, education stream and gender context enemy context- aggression	161
4.16	Mean and their S.D. for community, education stream and gender context insecurity	168
4.17	Difference between mean of community, education stream and gender context insecurity	168
4.18	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context insecurity	168
4.19	Mean and their S.D. for community, education stream and gender context family context insecurity	171
4.20	Difference between mean of community, education stream and gender context family context insecurity	171
4.21	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context family context insecurity	172
4.22	Mean and their S.D. for community, education stream and gender context school context insecurity	177
4.23	Difference between mean of community, education stream and gender context school context insecurity	177
4.24	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context school context insecurity	177

Sr.No	Title	Pg. No
4.25	Mean and their S.D. for community, education stream and gender context peer group context insecurity	182
4.26	Difference between mean of community, education stream and gender context peer group context insecurity	183
4.27	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context peer group context insecurity	183
4.28	Mean and their S.D. for community, education stream and gender context study context insecurity	188
4.29	Difference between mean of community, education stream and gender context study context insecurity	188
4.30	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context study context insecurity	189
4.31	Mean and their S.D. for community, education stream and gender context future context insecurity	193
4.32	Difference between mean of community, education stream and gender context future context insecurity	194
4.33	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context future context insecurity	194
4.34	Mean and their S.D. for community, education stream and gender context exam context insecurity	199
4.35	Difference between mean of community, education stream and gender context exam context insecurity	199
4.36	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context exam context insecurity	200
4.37	Mean and their S.D. for community, education stream and gender context self context insecurity	204
4.38	Difference between mean of community, education stream and gender context self context insecurity	205

Sr.No	Title	Pg. No
4.39	Summary of ANOVA (2×2×2) analysis of community, education stream and gender context self context insecurity	205
4.40	Mean and their S.D. for community, education stream and gender context existence context insecurity	210
4.41	Difference between mean of community, education stream and gender context existence context insecurity	210
4.42	Summary of ANOVA (2×2×2) analysis of community, education stream and gender context existence context insecurity	211
4.43	Mean and their S.D. for community, education stream and gender context personality trait	215
4.44	Difference between mean of community, education stream and gender context personality trait	216
4.45	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context personality trait	216
4.46	Mean and their S.D. for community, education stream and gender context out-going against reserved	221
4.47	Difference between mean of community, education stream and gender context out-going against reserved	221
4.48	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context out-going against reserved	222
4.49	Mean and their S.D. for community, education stream and gender context More against less intelligent	227
4.50	Difference between mean of community, education stream and gender context More against less intelligent	227
4.51	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context More against less intelligent	228
4.52	Mean and their S.D. for community, education stream and gender context Emotionally stable against emotional	233

Sr.No	Title	Pg. No
4.53	Difference between mean of community, education stream and gender context Emotionally stable against emotional	233
4.54	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context Emotionally stable against emotional	234
4.55	Mean and their S.D. for community, education stream and gender context Assertive against humble	239
4.56	Difference between mean of community, education stream and gender context Assertive against humble	239
4.57	Summary of ANOVA (2×2×2) analysis of community, education stream and gender context Assertive against humble	239
4.58	Mean and their S.D. for community, education stream and gender context Happy-go-lucky against sober	245
4.59	Difference between mean of community, education stream and gender context Happy-go-lucky against sober	245
4.60	Summary of ANOVA (2×2×2) analysis of community, education stream and gender context Happy-go-lucky against sober	245
4.61	Mean and their S.D. for community, education stream and gender context Conspicuous against expendent	251
4.62	Difference between mean of community, education stream and gender context Conspicuous against expendent	251
4.63	Summary of ANOVA (2×2×2) analysis of community, education stream and gender context Conspicuous against	251
4.64	Mean and their S.D. for community, education stream and gender context Bold against shy	256
4.65	Difference between mean of community, education stream and gender context Bold against shy	257

Sr.No	Title	Pg. No
4.66	Summary of ANOVA (2×2×2) analysis of community, education stream and gender context Bold against shy	257
4.67	Mean and their S.D. for community, education stream and gender context Tenderminded against thoughminded	262
4.68	Difference between mean of community, education stream and gender context Tenderminded against thoughminded	263
4.69	Summary of ANOVA (2×2×2) analysis of community, education stream and gender context Tenderminded against thoughminded	263
4.70	Mean and their S.D. for community, education stream and gender context Suspicious against trusting	268
4.71	Difference between mean of community, education stream and gender context Suspicious against trusting	268
4.72	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context Suspicious against trusting	269
4.73	Mean and their S.D. for community, education stream and gender context Imaginative against practical	273
4.74	Difference between mean of community, education stream and gender context Imaginative against practical	274
4.75	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context Imaginative against practical	274
4.76	Mean and their S.D. for community, education stream and gender context Shrewd against forthright	279
4.77	Difference between mean of community, education stream and gender context Shrewd against forthright	280
4.78	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context Shrewd against forthright	280
4.79	Mean and their S.D. for community, education stream and gender context Apprehensive against plaoid	285

Sr.No	Title	Pg. No
4.80	Difference between mean of community, education stream and gender context Apprehensive against plaoid	285
4.81	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context Apprehensive against plaoid	286
4.82	Mean and their S.D. for community, education stream and gender context Experimenting against traditional	290
4.83	Difference between mean of community, education stream and gender context Experimenting against traditional	291
4.84	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context Experimenting against traditional	291
4.85	Mean and their S.D. for community, education stream and gender context Self-sufficient against group-tied	296
4.86	Difference between mean of community, education stream and gender context Self-sufficient against group-tied	296
4.87	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context Self-sufficient against group-tied	267
4.88	Mean and their S.D. for community, education stream and gender context Controlled against causal	301
4.89	Difference between mean of community, education stream and gender context Controlled against causal	302
4.90	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context Controlled against	302
4.91	Mean and their S.D. for community, education stream and gender context Tense against relaxed	307
4.92	Difference between mean of community, education stream and gender context Tense against relaxed	307
4.93	Summery of ANOVA (2×2×2) analysis of community, education stream and gender context Tense against relaxed	308
