List of Tables

Table 3.0: Variables for Preparation for Social Reintegration 91
Table 3.1: Variables for Experience of Social Reintegration 92
Table 3.2: Location-wise sample selection of girls preparing for social reintegartion 98
Table 3.3: Age-wise sample selection of girls preparing for social reintegartion 98
Table 3.4: Location-wise sample selection of girls experiencing social reintegartion 99
Table 3.5: Age-wise sample selection of girls experiencing social reintegartion 99
Table 5.0: Caste-wise Religious Distribution of the Sample 140
Table 5.1: Age-wise Educational Status of the Girls 141
Table 5.2: The Nature of Family Relationships 142
Table 5.3: Total Number of years in residential care 144
Table 5.4: Mean and Standard Deviation of the Variables 145
Table 5.5: Participation of Girls in Extra-curricular Activities while in Residential Care 147
Table 5.6: Reading Habits among the Girls 148
Table 5.7: Distribution of girl’s responses - Preparation for social reintegartion 159
Table 5.8: Mean and Standard Deviation of preparation for social reintegartion scores across different religions 163
Table 5.9: Mean and Standard Deviation of preparation for social reintegartion scores across different educational levels 163
Table 5.10: Mean and Standard Deviation of preparation for social reintegartion scores across different models of care 164
Table 5.11: Mean and Standard Deviation of preparation for social reintegartion scores across different types of residential care homes 165
Table 5.12: Mean and Standard Deviation of preparation for social reintegartion scores based on level of happiness in residential care homes 165
Table 5.13: Social Support Network Score 166
Table 5.14: Self Esteem Score 167
Table 5.15: Mean and Standard Deviation of independent variables and their correlation with the preparation for social reintegartion Score 168
Table 5.16: Partial correlation among different variables with preparation for social reintegration 168
Table 5.17: Regression analysis summary for independent variables predicting girls preparation for social reintegration 169
Table 6.0: Caste-wise Religious Distribution of the Sample 172
Table 6.1: The Nature of Family Relationships 175
Table 6.2: Mean and Standard Deviation of different variables 176
Table 6.3: Age of leaving residential care 179
Table 6.4: Participation of Girls in Extra-curricular Activities while in Residential Care 182
Table 6.5: Reading Habits among the Girls 183
Table 6.6: Distribution of girl’s responses regarding their preparation for social reintegration 190
Table 6.7: Mean and Standard Deviation of the preparation for social reintegration scores across different models of residential care 193
Table 6.8: Mean and Standard Deviation of the preparation for social reintegration scores across different types of residential care homes 193
Table 6.9: Mean and Standard Deviation of residential care variables and their Correlation with preparation for social reintegration score 194
Table 6.10: Mean and Standard Deviation of the preparation for social reintegration scores among girls with varying levels of happiness in residential care 195
Table 6.11: Levels of happiness in residential care across different organisations 195
Table 6.12: T-test result for differences in preparation for social reintegration scores based participation in decision-making for leaving residential care 196
Table 6.13: Distribution of girl’s responses regarding their experience of social reintegration 197
Table 6.14: Type of marital family and level of happiness 203
Table 6.15: Mean and Standard Deviation of experience of social reintegration scores across different religions 205
Table 6.16: Mean and Standard Deviation of experience of social reintegration scores based on the marital status 206
Table 6.17: Mean and Standard Deviation of experience of social reintegration scores based on the educational qualification 206
Table 6.18: Mean and Standard Deviation of experience of social reintegration scores across various models of care 207
Table 6.19: Mean and Standard Deviation of experience of social reintegration scores across different types of residential care 208
Table 6.20: Mean and Standard Deviation of residential care variables and their Correlation with the experience of social reintegration score 209
