List of Figures

Figure  1 The biological roles of sphingolipids 9
Figure  2 Sampling station of Pazhayar 23
Figure  3 Dromia dehaani 25
Figure  4 Cytotoxicity of Vero cells 30
Figure  5 In vitro Cytotoxicity Assay of D. dehaani in Vero Cells 30
Figure  6 Anticancer Activity of HepG2 Cell Line 31
Figure  7 Morphological changes on HepG2 Cell Line 32
Figure  8 Anti-cancer activity of HT-29 Cell line 33
Figure  9 Morphological changes on HT-29 33
Figure 10 Anti-cancer activity of Rhabdomyosarcoma Cell line 34
Figure 11 Morphological changes on Rhabdomyosarcoma Cell Line 35
Figure 12 Anti-cancer activity of A549 Cell line 36
Figure 13 Morphological changes on A549 Cell Line 36
Figure 14 DNA fragmentation of HepG2 Cell Line 37
Figure 15 Pictographic image of liver 50
Figure 16 Histopathological changes of liver in control and experimental rats. 50
Figure 17 Activities of phase I and II enzymes in the liver of experimental and control animals 68
Figure 18 Changes in the levels of AFP and CEA in serum of experimental and control rats 68
Figure 19 Changes in the levels of lipid peroxidation in liver of experimental and control rats 69
Figure 20 Changes in the levels of lipid peroxidation in Plasma of experimental and control rats 69
Figure 21 Changes in the levels of enzymatic and non-enzymatic antioxidant status of liver in control and experimental rats 70
Figure 22 Changes in the levels of enzymatic and non-enzymatic antioxidant status of plasma in control and experimental rats 71
Figure 23 Influence of hemolymph on the activities of liver marker enzymes in the serum of control and experimental groups of rats 72
Figure 24 ESI-MS profile of haemolymph fraction R-5 of brachyuran 80
crab.

Figure 25  Disodium salt of phosphocholine  81
Figure 26  Fragmentation of disodium salt of phosphocholine  81
Figure 27  ESI-MS/MS of disodium salt of phosphocholine  82
Figure 28  Monosodium salt of phosphocholine  82
Figure 29  ESI-MS/MS of N-2O-acetyl-12 pentadecenoyl acetyl sphingosine Phosphorylcholine  83
Figure 30  N-2O-Acetyl-12pentadecenoyl phosphorylcholine (m/z 809)  84
Figure 31  ESI-MS/MS of the sphingomyelin  85
Figure 32  N-9-eicosenoyl- sphinganine phosphocholine (m/z 782)  85
Figure 33  ESI-MS/MS of the sphingomyelin  86
Figure 34  N-9-eicosenoyl-dehydro-sphinganine phosphocholine  86
Figure 35  $^1$H NMR spectrum in CDCl$_3$ of hemolymph fraction R5 of $D. dehaani$  87
Figure 36  $^{13}$CNMR spectrum in CDCl$_3$ of hemolymph fraction R5 of $D. dehaani$  88
List of Tables

Table 1  Anticancer compounds from marine organisms in clinical development.
Table 2  Antioxidants extracted from marine.  
Table 3  Effect of hemolymph on number, size of nodules and tumor incidence in control and experimental animals
Table 4  Body weight, organ weight, food and water intake in control and experimental rats
