III

ACKNOWLEDGEMENT

I am most fortune and feel proud to have guide Dr. Mrs. B.N Khanam, Reader in Education, Marathwada College of Education, Aurangabad, as my guide. In spite of his multifarious academic and social activities helped me at every step of research by his valuable guidance, inspired me whenever I was about to leave this research work due to fatigue and he gave me lot suggestions during the entire course of this research work.

A part from his academic busy activities he has always been very kind sympathetic, sincere and humanistic in rendering every kind of help. It is not possible for me to trace appropriate words to express my feeling of gratitude towards him.

I am very much grateful to the principal Dost Mohammed Khan, Dr. Khalique, for providing me numerous facilities for my research work.

I would take to record my deep sense of love to my wife Nazema Pathan who played an important role to keep me inspired and enthusiastic during the entire course of this research project.
She has not only motivated me to complete this research project but also helped me to overcome all sorts of obstacles and ups and downs. I must not forget that due to her blessings and love I could do this work. Therefore, I owe to express my sincere gratitude and thanks to my wife for her immense assistance extended to me.

I shall be failing in my duty if I do not express a deep sense of gratitude and guidance to Dr. Shaikh Ramzan who have spared their time, supported me to administer the test, responded to many queries, to complete and collect data relevance for my research concern. In all without the help and guidance of him it was literally impossible for me to complete my research work.

(Pathan Rauf Sattar)
