4.1.19	Distribution of respondents according to experience with respect to their opinion on whether they feel they are closer to their readers	177
4.1.20	Distribution of respondents according to sex, age and educational qualification with respect to their opinion on deadlines in online environment	179
4.1.21	Distribution of respondents according to experience with respect to their opinion on deadlines in online environment	181

Table No.	Title	Page No.
4.1.22	Distribution of respondents according to sex, age and educational qualification with respect to their opinion on whether they miss the credit of bylines	182
4.1.23	Distribution of respondents according to experience with respect to their opinion on whether they miss the credit of bylines	184
4.1.24	Distribution of respondents according to sex, age and educational qualification with respect to their opinion on how secure they feel in online environment	186
4.1.25	Distribution of respondents according to experience with respect to their opinion on how secure they feel in online environment	188
4.1.26	Distribution of respondents according to sex, age and educational qualification with respect to their opinion on whether they feel they are better than their counterparts in print media	190
4.1.27	Distribution of respondents according to experience with respect to their opinion on whether they feel they are better than their counterparts in print media	192
4.1.28	Distribution of respondents according to sex, age and educational qualification with respect to their choice of careers	193
4.1.29	Distribution of respondents according to experience with respect to their choice of careers	196
4.1.30	Distribution of respondents according to sex, age and educational qualification with respect to their opinion on whether their journalistic aptitude is affected in online environment	197

Table No.	Title	Page No.
4.1.31	Distribution of respondents according to experience with respect to their opinion on whether their journalistic aptitude is affected in online environment	199
4.2.1	Distribution of respondents according to age, educational qualification, occupation and monthly income versus sex	203
4.2.2	Distribution of respondents according to sex, age, educational qualification and monthly income with respect to newspaper readership	206
4.2.3	Distribution of respondents according to sex, age, educational qualification, occupation and monthly income with respect to newspaper subscription	210
4.2.4	Distribution of respondents according to sex, age, educational qualification, occupation and monthly income with respect to ownership of personal computers at home	213
4.2.5	Distribution of respondents according to sex, age, educational qualification, occupation and monthly income with respect to Internet connection at home	218
4.2.6	Distribution of respondents according to sex with respect to the place of access of Internet	221
4.2.7	Distribution of respondents according to age with respect to the place of access of Internet	222
4.2.8	Distribution of respondents according to educational qualification with respect to the place of access of Internet	223
4.2.9	Distribution of respondents according to occupation with respect to the place of access of Internet	225

Table No.	Title	Page No.
4.2.10	Distribution of respondents according to monthly income with respect to the place of access of Internet	227
4.2.11	Distribution of respondents according to sex with respect to the quantum of use of Internet	229
4.2.12	Distribution of respondents according to age with respect to the quantum of use of Internet	231
4.2.13	Distribution of respondents according to educational qualification with respect to the quantum of use of Internet	233
4.2.14	Distribution of respondents according to occupation with respect to the quantum of use of Internet	235
4.2.15	Distribution of respondents according to monthly income with respect to the quantum of use of Internet	237
4.2.16	Distribution of respondents according to sex with respect to the time spent on Internet each time	239
4.2.17	Distribution of respondents according to age with respect to the time spent on internet each time	240
4.2.18	Distribution of respondents according to educational qualification with respect to the time spent on Internet each time	242
4.2.19	Distribution of respondents according to occupation with respect to the time spent on Internet each time	244
4.2.20	Distribution of respondents according to monthly income with respect to the time spent on Internet each time	246
4.2.21	Distribution of respondents according to the quantum of use of internet with respect to the preferred use of internet	248

Table No.	Title	Page No.
4.2.22	Distribution of respondents according to sex, age, educational qualification, occupation and monthly income with respect to newspaper readership on the Net	251
4.2.23	Distribution of respondents according to sex with respect to the time spent on reading newspapers on internet	256
4.2.24	Distribution of respondents according to age with respect to the time spent on reading newspapers on Internet	257
4.2.25	Distribution of respondents according to educational qualification with respect to the time spent on reading newspapers on Internet	259
4.2.26	Distribution of respondents according to occupation with respect to the time spent on reading newspapers on internet	261
4.2.27	Distribution of respondents according to monthly income with respect to the time spent on reading newspapers on Internet	263
4.2.28	Distribution of respondents with respect to their choice of news on internet	266
4.2.29	Distribution of respondents with respect to their choice of online Newspapers / services	267
4.2.30	Distribution of respondents with respect to their choice of contents in online newspaper / services	274
4.2.31	Distribution of respondents according to the quantum of use of Internet with respect to their manner of reading newspapers on Internet	276

Table No.	Title	Page No.
4.2.32	Distribution of respondents according to the quantum of use of Internet with respect to their preferences of print and internet editions of newspapers.	278
4.2.33	Distribution of respondents according to the quantum of use of Internet with respect to the reasons for which they prefer the print editions of newspapers	279
