CONTENTS

List of Figures i
List of Tables ii
Acknowledgement iii

Chapter I – Introduction 1-28
  1. Previous investigation in South India
  2. Area under investigation
  3. Problems
  4. Methodology

Chapter II - Geographical Background 29-43
  1. Physical features
  2. Geology
  3. Soil
  4. River system
  5. Climate and Rainfall

Chapter III - Southern Neolithic Cultures in India 44-93
  1. Site from Southern Neolithic
  2. Features of Southern Neolithic
  3. Ashmound Tradition

Chapter IV - Study of Cultural remains in order to reconstruct settlement and subsistence patterns of Southern Neolithic sites 94-127
  1. Archaeological remains –Lithics, pottery, structure, art, etc.
  2. Biological remains- Human, Faunal and floral remains
Chapter V – Lithic assemblage from Southern Neolithic sites.  128-147
1. Brief account on the study of stone tools from Neolithic period.
2. Types of Lithic assemblage:
   a. Microliths
   b. Edge tools
   c. Non edge tools
   d. Marcoliths

Chapter VI- Lithic assemblage from Sanganakallu site  148-232
1. Study of Raw Material
   a. Location and description of raw material.
   b. Site-to-source distance.
2. Analysis of lithics from Sanganakallu.
   a. Types of lithic assemblage from Sanganakallu.
      Morphological variability within lithic assemblage.
   b. Lithic reduction sequence for all types of lithics found from this site.

Chapter VII – Conclusion  233-236

Bibliography  237-281
