LIST OF TABLES

Table No.	Title	Page No.
3.1	List of okra germplasm lines evaluated during kharif 2009	44
3.2	List of parents selected as lines and testers for crossing	45
3.3	List of crosses developed by Line x tester design	46
4.1 a to 4.1 h	Analysis of variances for line x tester in okra	66-69
4.2.1 a & b	*Per se* performance and heterosis studies for days to first flowering in okra	73-76
4.2.2 a & b	*Per se* performance and heterosis studies for days to 50% flowering in okra	82-85
4.2.3 a & b	*Per se* performance and heterosis studies for number of branches per plant in okra	91-94
4.2.4 a & b	*Per se* performance and heterosis studies for plant height in okra	101-104
4.2.5 a & b	*Per se* performance and heterosis studies for tender fruit length in okra	110-113
4.2.6 a & b	*Per se* performance and heterosis studies for number of seeds per fruit in okra	119-122
4.2.7 a & b	*Per se* performance and heterosis studies number of fruits per plant in okra	128-131
4.2.8 a & b	*Per se* performance and heterosis studies for weight of fruits per plant in okra	137-140
4.3.1 a to h	Analysis of variance for combining ability in sesame	145-148
4.3.2.1a	General combining ability effects for days to first flowering in okra	154
4.3.2.1b	Specific combining ability effects for days to first flowering in okra	155
4.3.2.2a	General combining ability effects for days to 50% flowering in okra	158
4.3.2.2b	Specific combining ability effects for days to 50% flowering in okra	159
4.3.2.3a	General combining ability effects for number of branches per plant in okra	163
4.3.2.3b	Specific combining ability effects for number of branches per plant in okra	164
4.3.2.4a	General combining ability effects for plant height in okra	168

Table No.	Title	Page No.
4.3.2.4b	Specific combining ability effects for plant height in okra	169
4.3.2.5a	General combining ability effects for tender fruit length in okra	172
4.3.2.5b	Specific combining ability effects for tender fruit length in okra	173
4.3.2.6a	General combining ability effects for number of seeds per fruit in okra	178
4.3.2.6b	Specific combining ability effects for number of seeds per fruit in okra	179
4.3.2.7a	General combining ability effects for number of fruits per plant in okra	182
4.3.2.7b	Specific combining ability effects for number of fruits per plant in okra	183
4.3.2.8a	General combining ability effects for weight of fruits per plant in okra	188
4.3.2.8b	Specific combining ability effects for weight of fruits per plant in okra	189
4.5.1	Analysis of variances for kharif season stability in okra	194
4.5.2	Analysis of variances for kharif and summer season stability in okra	195
4.5.3.1	Stability parameters for days to first flowering in okra	198-199
4.5.3.2	Stability parameters for days to 50% flowering in okra	200-201
4.5.3.3	Stability parameters for number of branches per plant in okra	204-205
4.5.3.4	Stability parameters for plant height in okra	206-207
4.5.3.5	Stability parameters for tender fruit length in okra	212-213
4.5.3.6	Stability parameters for number of seeds per fruit in okra	214-215
4.5.3.7	Stability parameters for number of fruits per plant in okra	218-219
4.5.3.8	Stability parameters for weight of fruits per plant in okra	220-221
5.1	Top five hybrids on basis of *per se* performance for quantitative traits in kharif- 2010 (KE_1)	233
5.2	Top five hybrids on basis of *per se* performance for quantitative traits in kharif- 2011 (KE_2)	234
5.3	Top five hybrids on basis of *per se* performance for quantitative traits in kharif- 2012 (KE_3)	235
5.4	Top five hybrids on basis of *per se* performance for quantitative traits in kharif- 2011 (SE_1)	236
5.5	Top five hybrids on basis of *per se* performance for quantitative traits in summer- 2012 (SE_2)	237
