Acknowledgement

Foremost, I would like to express my sincere gratitude to my research supervisor Prof. P. Sambasiva Rao, Department of Chemistry, Pondicherry University, Puducherry, for the continuous support from preliminary to the concluding level enabled to develop an understanding of the subject EPR spectroscopy, for his patience, motivation, enthusiasm and immense knowledge. His guidance helped me in all the times of research and also in writing this thesis with constant support and outstanding guidance with patience and parental affection which made me to come up with the thesis. I could not have imagined having a better advisor and mentor for the Ph.D study.

Beside my advisor, I would like to rest of my Doctoral committee members Prof. K. Porsezian, Department of Physics and Dr. R. Venkatesan, Associate Professor, Department of Chemistry, Pondicherry University for their encouragement, insightful comments and hard question precede my research further.

I would to like express my sincere thanks to Prof. H. S. P. Rao, Prof. B. B. Das, Prof. K. Anbalagan, Prof .K. Tharanikkarasu, Dr. Bala.Manimaran, Dr. G. Vasuki, Dr .C. Sivasankar, Dr. N.
