ACKNOWLEDGMENTS

I thank the Almighty Allah for His blessings and all that He bestowed on me and I pray that He make my study relevant and rewarding to all humankind. There have been so many who have lighted the load of this long journey. First I am indebted to Prof. Uma Masherwar Rao, who always proved to me how lucky I am to have him as my research supervisor. His vast knowledge, practical acumen, and generous heart were inexhaustible source for me all the time, all the way. I would like to thank him for his unending patience, invaluable suggestions, practical comments and criticisms, fatherly treatment, and the support that I received from him in so many forms. I would also like to express my warm and sincere thanks to my doctoral committee members: Prof. Panchanan Mohanty and Dr K. Rajaya Rama, for their understanding, encouragement and personal guidance, which have provided a good basis for the present thesis. Their vast knowledge and their logical way of thinking have been of great value for me. Throughout my thesis-writing period, they provided sound advice, good teaching and lots of good ideas.

I highly appreciate the support of University Grants Commission (UGC), for awarding me the UGC-JRF Fellowship for Foreign Nationals. I also thank the Government of Yemen, represented by the Ministry of Higher Education, whose support made this work possible.

I wish to express my heartfelt sense of gratitude to my parents, without whom I would not have become what I am, and I would like to say how sorry I am for being unable to share these moments with them due to their demise. I also wish to thank my brothers, eldest brother Rasheed (who used to support me from time to time), Captain Waleed, Captain Ryadh, Mahir Majid, Alizi, and my sister, Dr Dhikra. Very special thanks go to my wife, who not only shared the load but made my life the dreamlike
life I always wanted it to be. My cute children, Saja and Zeryab, have lit the whole way with their smiles and cries.

I owe a number of people sincere thanks for their cooperation and support. Among them are Dr. Abdullah Saleh Aziz, Dr. Mansoor Al Gabali, Dr. Ali Shahra, Amir Ali Sallam, Sultan Al Halmi, Fawwaz Annashif and Mansoor Sarhan. Special thanks go to my classmate Tariq Khan for his support and cooperation. I am also grateful to the office staff in the Centre for Applied Linguistics and Translation Studies (CALTS), Central University of Hyderabad, Gachibowli, Hyderabad, India, for their continuous cooperation and positive attitude towards scholars.
