ACKNOWLEDGEMENT

First and foremost, I would like to express my heartiest gratitude to my honorable and esteemed supervisor Dr. Manpreet Singh, Professor and Head, Department of Information Technology, Maharishi Markandeshwar University, Mullana for his suggestions, guidance and constant encouragement throughout the progress of the thesis. His consistent support and intellectual guidance inspired me to innovate new ideas. I am greatly indebted to him for reviewing, analyzing the thesis structure and giving me valuable recommendations.

Thanks to Professor Anil Kumar Kapil for continuously following and supporting my work. At last but not the least, I would like to pay my sincere regards to the Faculty members of Computer Science and Engineering department, M.M. Engineering College, Mullana, for their invaluable support and blessings, which were a vital necessity for the completion of research work.

Special thanks are due to my mother Smt. Kaushlia Devi whose love and affectionate blessings have been a constant source of inspiration in making this manuscript a reality. I sincerely pay tributes to my father Late Sh. Chaman Lal. At the end, I express my deep sense of appreciation to my wife Sugeeta and children Hardik and Hemakshi for their cooperation and patience during the completion of my research work.

All the thanks are, however, only fraction of what is due to Almighty for granting me an opportunity and the divine grace to successfully accomplish this assignment.

Rajneesh Kumar
