ACKNOWLEDGEMENTS

First and foremost I am grateful to my advisor, Dr. Suttur S. Malini for mentorship, support, insightful comments, and for providing excellent atmosphere for doing research. Then, I would like to express my special appreciation to Prof. N. B. Ramachandra, chairman of Board of studies in Genetics and also the chairman of Department of studies in Genetics and Genomics. I am sincerely thankful to my doctoral committee members Prof. G. Subramanya, Prof. S. R. Ramesh and Prof B. V. Shyamala for all scientific discussions, suggestions and support.

I am extremely thankful to all former chairpersons and the current chairperson, Prof. H. N. Yajurvedi, Department of Studies in Zoology for their valuable support. My sincere thanks to entire teaching and non teaching staffs, Department of Studies in Zoology for their immense support and help. Most importantly, I owe my gratitude to Prof. M. R. Gangadhar, Department of Studies in Anthropology because of whom my research carrier has been kick started that I will cherish forever.

I would like to thank the University of Mysore and Molecular Reproductive and Human Genetics Laboratory, University of Mysore for giving me an opportunity to carry out my research without any trouble. On the funding part, I acknowledge the support from Institution of Excellence, University of Mysore and Senior Research Fellowship from Indian Council of Medical Research (ICMR), Government of India. Also, Department of Science and Technology (DST) travel grant for funding my participation in the International workshop on molecular biology techniques related to infectious/genetic diseases and human identification held at Colombo, Sri Lanka. Finally, International Centre for Genetic Engineering and Biotechnology – (ICGEB) awarding grant support for my visit to Colombo, Sri Lanka is greatly acknowledged.

I am deeply grateful to my fellow past and current lab members for their timely inputs, discussions and support. None of this would have been possible without the support extended by Mr. Ramnath Siddi and Mr. Manuel Siddi, Siddi Jana Vikasa Sangha, Yellapura and the entire Siddi tribal community for their unconditional love, work support and immeasurable hospitality during our field visit. My sincere thanks
to Dr. Sharath Kumar C. and his team at Mediwave IVF and Fertility Research Hospital, Mysore for referring the samples.

I am grateful to my fellow friends from Department of Biotechnology University of Mysore for their immense technical support and suggestions during my research work. I also like to thank all my friends outside the department and specially Gold’s Gym, who helped to relieve my work stress and pains.

I bestow my research work to my beloved parents Late. Sri. Sathyaranayana H. S. and Smt. Prasanna Lakshmi for their immense love and care. My Sincere gratitude to my father and mother in law for their valuable encouragement and love.

In particular, none of this would have been possible without the abundant support, patience and encouragement of my brother Mr. Nagananda H. S., and my dear life partner Madhumala K.S., as well as my little angel, Diya Kashyap, who stood by me through good and bad times.

Shivaprasad H. S.
