ACKNOWLEDGEMENT

First of all I am thankful to the almighty God, the most benevolent and merciful, for giving me the strength and zeal to complete this endeavour.

A journey is easier when you travel together. Interdependence is certainly more valuable than independence. During the course of this investigation, I have not travelled in a vacuum. There are some people who made this journey easier with words of encouragement and more intellectually satisfying by offering different places to look to expand my theories and ideas. It is a pleasant aspect that I have now the opportunity to express my gratitude to all of them.

First and foremost, I feel great pleasure and privilege in expressing my profound sense of gratitude and indebtedness to Dr. (Mrs.) Vidya Patni, Associate Professor, Department of Botany, University of Rajasthan, Jaipur for giving me opportunity to carry out my Ph.D under her able supervision. I am thankful to her judicious and scholarly guidance and constructive criticism during the course of this investigation which made this endeavour a success. Her critiques and suggestion added significantly to my research progress and the quality of the implementation.

I whole-heartedly thank Prof. Uma Kant, Prof. Emeritus, Ex-Head, Department of Botany, University of Rajasthan, Jaipur, from whom I have derived moral support and constant encouragement throughout the journey. I am thankful to him for his valuable suggestions, action-oriented and generous help during my investigation and in compiling the thesis. His parental affection gave me an affectionate and conducive atmosphere.

I am highly thankful to Prof. K.P. Sharma, Head and Prof. T. Singh, Prof. S.C. Jain, Prof. Raka Kamal, Ex-Head, Department of Botany for providing infrastructure support and facilities.

I would like to acknowledge my indebtedness to Dr. (Mrs.) Payal Lodha, Dr. (Mrs.) Sumanlata Sharma, Dr. Gajendra Pal Singh and Dr. Ramavatar Sharma for their support and encouragement.

I would like to make a special note of thanks to Prof. Sudhakar Mishra, Prof. Emeritus, Department of Botany, University of Rajasthan, Jaipur, for providing research material and valuable suggestions during the course of this endeavour.

I am highly thankful to Late Mr. Roop Singh, Ex Senior incharge of Herbarium, Department of Botany, University of Rajasthan, for his valuable help in identifying and searching the research material.
I wish to express my sincere thanks to my senior colleagues Dr. Deepika Arya, Dr. Rishikey Meena, Dr. Mahesh Chand Meena, Dr. Preeti Mishra, Dr. Asha Ranjith, Dr. Anamika Parashar, Dr. Raina Sisodia, Dr. Kamal Singh Marmit, Dr. Vijay Prakash Meena, Dr. Kartikeya Tiwari, Dr. Swati Joshi, Dr. Neha Grover, Dr. Meenakshi Singh, Ajay Kumar Jakhar, Ramraj Meena, Raghunandan Singh Nathawat and Ravindra Nath for their timely help and constant cooperation.

I would like to express my special thanks to my research colleagues Alok Sharma, Kavi Gour, Nidhi Sharma, Riddhu Palawat, Shilpi Rajput, Sunil Kumar Puniya, Vijay Verma, Kumkum, Riddhi, Deepchhavi, Anuj, Apeksha and Abhavya. They helped me immensely by giving me affection and encouragement. They mirrored back my ideas so I heard them aloud, an important process for this writer to shape this thesis. I can only say a big thanks to them from the core of my heart.

I owe a special word of thanks to my dear friend and research colleague Dr. Neelam Singh for her untiring help and invaluable support throughout the course of this investigation. This task could not have been initiated and completed without her constant support and encouragement.

The constant co-operation, inspiration and moral support accorded by my friends Mr. Shiv Kumar, Mr. Satendra Singh, Mr. Dharmendra, Mr. Suratram Meena and Mr. Rakesh Meena are worth mentioning.

My deepest gratitude goes to my family for their unflagging love and support throughout my research work, this work would have been simply impossible without them.

No words are adequate enough to express gratitude and indebtedness to my father Sh. Jagdish Prasad Meena and my mother Smt. Sarupi Meena for their strong moral support, inspiration, encouragement, blessings and wishes. Their boundless affection has been my great strength during the moment of stress. They offered me their silent contribution and moral support when it was most needed.

The blessings of my grandfather Late Mr. Kori Lal Meena and my grandmother Mrs. Gopali Devi were always with me during my research work.

In words it is impossible to express my sincere and heartfelt thanks to my younger brother Mr. Jeevan Ram Meena for his zeal and zest, persistent cooperation, patience and endurance and standing by me like a rock during critical periods and helping me a great deal to fulfill my scientific pursuits.
I am at a loss for words to express my feelings towards my sisters Miss Ashok Meena, Mrs. Seema Meena and jijaji Mr. Mukund Ram Meena for their encouragement, understanding and cheerful co-operation. I am also thankful to other family members for their helping attitude throughout the study period.

I shall be failing in my duty if do not recall my indebtedness to Dr. S.K. Dhabhai for his esteemed cooperation.

Financial assistance in the form of senior research fellowship from CSIR, New Delhi is gratefully acknowledged. Acknowledgements are due to ARBRO Delhi, Oasis laboratory, Jaipur and Chemind Diagnoses Jaipur for instrumentation facilities for HPTLC, IR Spectra and RAPD experiments.

I am thankful to all non-teaching staff members and librarian for their help during the research work. I am also thankful to Mr. Arun Kumawat (Genius Computers) for his efficient laser typesetting of manuscript.

I sincerely thank all those people whose names I have not mentioned here, but directly or indirectly they have contributed a lot in making this thesis a success.

[MUKESH KUMAR MEENA]
