ACKNOWLEDGEMENTS

At this moment of accomplishment, first of all I thank my guide, Dr. K.N. Dhumal, Former Professor, Department of Botany, University of Pune. This work would not have been possible without his guidance, support and encouragement. Under his guidance I have successfully completed this research work and learned a lot. He used to review my thesis progress, and also gave valuable suggestions from time to time. His unflinching courage and conviction has always inspired me, and I wish to continue to work with his noble thoughts in future also. This research work is outcome of his great efforts of continuous encouragement, valuable guidance and inspiring fruitful discussions. I will never forget his kind support.

I am also extremely indebted to my co-guide Dr. T. D. Nikam, Professor, Department of Botany, UOP for providing necessary infrastructure and resources to accomplish my research work. I am very much thankful to Dr. S. S. Bhargava, Head, Department of Botany, UOP, and the Former HODs Dr. S. S. Deokule, Dr. V. R. Gunale, for their constant and incessant support and for providing necessary facilities to carry out my research work. I warmly thank Dr. S. M. Pawar, Sugarcane specialist, Central Sugarcane Research Station, Padegaon, Satara and Former HOD, Department of Botany, College of Agriculture, Shivajinagar, Pune 411005, for providing research field to conduct field trials. I would also like to express my gratitude towards Dr. P. B. Jagtap, NARP, Ganeshkhind, Pune for his valuable advice, constructive criticism and extensive discussions during the field experiments.

I wish to extend my thanks to Professor (Dr.) B. A. Chopade, Former Director, Department of Bioinformatics and Biotechnology, University of Pune, for availing the facility of gas chromatography. I also thank Dr. P. B. Vidyasagar, Vice Chancellor, Swami Ramanand Thirth University, Nanded (M.S.) and Former Professor and HOD, Department of Physics, UOP for providing the facility of TPS-2 and Handy PEA. I would also like to thank Mr. Avinash, Mr. Kamble and Ms. Jyotsna from Department of Physics, UOP for their help and suggestions during the photosynthetic studies. I would also like to thank Dr. Ashok Giri, Senior Scientist, National Chemical Laboratory, Pune for providing essential oil standards and Dr. D.G. Naik, Agarkar Research Institute, Pune for his help and guidance in essential oil
extraction and analysis. I would like to thank the Director, NRCSS, Ajmer, Rajasthan, for providing authentic seed material of Ajowan.

I take this opportunity to sincerely thank and acknowledge the financial help by University Grant Commission, Government of India, New Delhi, for granting me meritorious student research fellowship to complete my Ph.D degree during Jan 2010- Jan 2014.

I also sincerely thank my senior research friends Dr. Mahanaz, Dr. H.S. Patil, Dr. Bolbhat, Dr. Chanda Hase, Dr. Nivedita Ghayal, Dr. Anuradha Parale, Dr. Shilpa Shitole, Dr. Samarpita Roy, Dr. Pravin Taware, Dr. Sujata Valvi, Sadhana Chougale, Laxmi, Shanawaz, Manisha, Nisha, Ketaki, Veera, Gauri, Kshitija and Kiran for their support and constant encouragement. I am also thankful to all the teaching and non- teaching staff of Botany Department, University of Pune. Thanks are also to Mr. Maindargi, for his help in photography, Mr. Santosh Sutar for making photoplates and Mr. Vilas Nirmal for solving computer related issues.

It is my pride and privilege to acknowledge the unfailing support and steady encouragement that I received from my beloved mother Shakuntala, Father Shivdas Rohamare, sister Kavita, brothers Yogesh and Kishor, In laws Mrs Vimal and Baban Kandekar, Karbhari Kandekar, Savita and Suryakant Kandekar. My acknowledgements would be incomplete without the encouragement, inspiration and moral support of my betterhalf Mr. Santosh Kandekar and my cute son Shaurya.

This thesis is the completion of my journey in getting Ph.D and I feel that I have not traveled in a vacuum during this journey. Least but not at last I thank my well wishers, friends, colleagues, various institutions and all those who contributed in many ways to the success of this research work and made it an unforgettable experience for me.

Ms. Yogita Shivdas Rohamare

(Candidate)
