- Major Trends – Enrolment
- Utilization of Food Grains
- Expenditure on MDM
- ICDS
- Expenditure on ICDS Programmes
- Conclusion

CHAPTER-4: Primary Survey–Introduction and 137-185

Socio-Economic Background

- Brief Introduction of Jaipur District
- Human Resources and Position of Human Development Indicators
- Economic and Infrastructural Position
- Introduction of Selected Villages
- Socio-economic Profile of the Sample
- Houses, Household Amenities
- Water Availability
- Sanitation Facilities
- Asset Holding
- Educational Indicators
- The size of Family
- Pattern of Consumption Expenditure
- Dependency Ratio
- Utilization of Governmental programmes by Family
- Output Indicators
- Conclusion

CHAPTER-5: Determinants of Nutritional Status 186-244

- Inhabitation and Nutritional Status
- Per Capita Income and the Nutritional Status
- PDS Category and Nutritional Status
- Caste and the Nutritional Status
- Dwelling Conditions and Nutritional Status
- Drinking water and Nutritional Status
- Sanitation facilities and Nutritional Status
- Possession of Assets and Nutritional Status
- Family Size and Nutritional Status
- Beneficiaries of Programmes and Nutritional Status
- Dietary Expenditure and Nutritional Status
- Literacy and Nutritional Status
- Source of Livelihood and Nutritional Status
- Dependency Ratio and Nutritional Status
- Analysis of Regression Results Perception of People relating to existing System of Food Security
- Regularity of Supply
- Quality of Food Grains and Services
- Sufficiency of Government Interventions
- Transparency and Fairness in Programmes
- Conclusion

CHAPTER-6: Findings and Suggestions 245-253

BIBLIOGRAPHY 254-291

APPENDIX 292-299
