ACKNOWLEDGMENT
When any piece of work is satisfactorily accomplished it is never the work of one person but a concerted effort of a number of people, who silently work behind the scene and often go unheard of. Much of any merit that this work may have is due to the generosity of those named here, whose knowledge and practical experience has guided me to complete this work.

My first thought is to offer my obeisance to God almighty without whose silent but omnipresent help none of this would have been possible.

With a sense of reverence and humble submission, I am very grateful to Dr. Swadesh Sharma, M S., F I C O G., Professor & Head, Department of Obstetrics and Gynaecology, M L B Medical College, Jhansi, for moulding me capable enough to understand the subject and imparting the knowledge and skill necessary for study. It was her constant inspiration, kind guidance, healthy criticism and most needed affectionate suggestions that I am capable of presenting this work. I shall always remain indebted to her guidance, advise and help.

I am grateful to Dr. S. Arora, M S., F I C O G., Associate Professor, Department of Obstetrics & Gynecology M L B Medical College Jhansi. Words fail me to express her unfathomable sense of reverence, vast knowledge and her affectionate encouragement and ready suggestions in the completion of this study.

I am deeply indebted to Dr. R.C. Arora, M D Professor & Head of the Department of Medicine M L B Medical College, Jhansi, for providing me all facilities and rendering his valuable guidance and supervision. His wide experience in the field of medicine has helped me to accomplish the
present work with unobstructed spontaneity

I am sincerely grateful to Dr. S. Kharakwal (M.D) Assistant Professor, Department of Obstetrics & Gynaecology, M.L.B. Medical College, Jhansi whose untiring efforts, enthusiasm and insistence for perfection inspired me throughout this work right from its inception.

I am extremely grateful to Dr. B.D. Mathur, M.Sc., D.H.E. Associate Professor, Statistics and Demography, Department of Obstetrics & Gynaecology, M.L.B. Medical College, Jhansi, for his keen interest in the work and his ready help in the compilation and evaluation of monumental statistics during the course of this work.

I am specially thankful to Dr. V.K. Jain, M.D., DCP, Associate Professor & Head Department of Pathology, M.L.B. Medical College, Jhansi, helping me to carry out the needed investigations, without his help it would have been very difficult to work.

I shall forever remain grateful to my revered teachers, Dr. M. Kapoor, M.S., Associate Professor, Department of Obstetrics & Gynaecology, M.L.B. Medical College, Jhansi, Dr. U. Agarwal, M.S., Associate Professor, Department of Obstetrics and Gynaecology, M.L.B. Medical College, Jhansi and Dr. S. Sharma, M.D., Assistant Professor, Department of Obstetrics and Gynaecology, M.L.B. Medical College, Jhansi.

I also wish to record my heartfelt appreciation for immense cooperation of all the Residents of Obstetrics & Gynaecology Department.

Words are inadequate to express my feelings and indebtedness for my Parents & Brother without whose active support and encouragement, I might never have been able to become a student of this noble profession.

Special words of thanks are due to my husband Dr. Rajeev Gupta,
Who always boosted my morale and indispensable help from time to time

I would like to thank my sweet baby boy Shivansh whose mere presence was enough to get me going through and lead this work to completion

I am also thankful to Mr. Vijay Khare (Happy Art) for taking care of the typographical work of this dissertation in the present tidy manner

Last but not the least I wish to express my sincere gratitude to my patients whose co-operation is an essential part of any study

With this I humbly submit this work as a tentative step in the progress of fetomaternal medicine

Dated 29.2.2000

Dr. Shalini Agarwal
