CONTENTS

I  Cropping Pattern - Its Theoretical Dimensions : 1 - 75

1.1  Cropping pattern - A concept

1.2  Cropping pattern - A rigid concept?

1.3  Cropping pattern defined

1.4  Ideal cropping pattern

1.5  Ideal cropping pattern - A myth

1.6  Government and the cropping pattern

1.7  Stages of economic development and cropping pattern

1.8  Cropping pattern - A function of variable costs

1.9  Attitude of peasants and farmers towards cropping pattern

1.10  Objectives of the study of cropping patterns

1.11  Types of cropping pattern

1.12  Changes in the cropping pattern

1.13  Tools available to measure the changes in cropping pattern
II  Cropping Pattern Determinants:  

2.1 Ecological and natural factors  
2.2 Economic factors  
2.3 Sociological factors  
2.4 Political factors  
2.5 Personal factors  
2.6 Classification of the determinants  

III  Historical Sketch Of The Area Under Review:  

3.1 Brief introduction of the region  
3.2 Brief history of the region  
3.3 Soil structure of Marathwada  
3.4 Rainfall  
3.5 Irrigation in Marathwada  
3.6 Land holdings in Marathwada  
3.7 Utilisation of land in Marathwada  
3.8 Cropping seasons and different crops cultivated  
3.9 People of Marathwada  
3.10 Marathwada in Maharashtra  
3.11 Appraisal
IV  Methodology  

4.1 Significance of the study  
4.2 Objectives of the study  
4.3 Issues framed  
4.4 Why the study of a region?  
4.5 Period chosen for study  
4.6 Heads on which data is collected  
4.7 Source of data  
4.8 Reliability of the data collected  
4.9 Statistical tools used in the study  
4.10 Limitations of the study  
4.11 Chapter scheme  

V  Cropping Pattern Of Marathwada - A Districtwise Study  

5.1 Cropping pattern of Aurangabad district  
5.2 Cropping pattern of Parbhani district  
5.3 Cropping pattern of Nanded district  
5.4 Cropping pattern of Bhim district  
5.5 Cropping pattern of Osmanabad district
VI  Inter-District And Other Comparisons:  410 - 498

6.1 Cropwise situation in different districts
6.2 Area under different crops
6.3 Area under different groups of crops
6.4 Stability in the area under cultivation
6.5 Cultivation of land under different agricultural seasons
6.6 Crops irrigated in different districts
6.7 Extent of crop diversification
6.8 Cropping pattern of Marathwada and Maharashtra compared
6.9 Cropping pattern of Marathwada compared with the National cropping pattern

VII  Summary And Conclusions:  499 - 532

7.1 Conclusions
7.2 Appraisal
7.3 Suggestions

Select Bibliography  533 - 552
