ACKNOWLEDGEMENT

I wish to express my sincere gratitude to my guide Dr. R. Naagabhushanam (Professor and Head, Department of Zoology, Marathwada University, Aurangabad) under whose eminent guidance, the present investigation has been carried out. It is a pleasure to offer my thanks to him for his invaluable suggestions, comments and continuous encouragement.

I am very much grateful to Dr. (Mrs.) R. Sarojini, (Reader, S.A.P., Department of Zoology, Marathwada University, Aurangabad), Dr. M. M. Hanumante (Post-doctoral fellow, Tulane University, New Orleans, USA), Dr. U. H. Mane (Reader, S.A.P., Department of Zoology, Marathwada University, Aurangabad) and Dr. D. P. Vaidya (Lecturer in NSB College, Nanded) for their incalculable help, important suggestions, crisp comments and encouragement during the complete tenure of my research work.
My thanks are also due to Shri. U. D. Deshpande, Shri. C. B. Dummalod, Shri. P. K. Joshi and Shri. U. M. Parooqui, for the unreserved help rendered by them during the entire period of the research work.

I should record my sincere gratitude to my parents for their silent and active help, without which this investigation has never been fruitful.

I am also grateful for the partial financial support and research facilities provided to me through USDA PL-480 Project snail-control, 47 ADF-39.

Finally I wish to thank Shri. Nitin Nikam for typing this thesis, Shri. C. H. Narale, Photographic artist for preparing the photographs.

( V. N. RAYUDU )
