ACKNOWLEDGEMENT

The vocabulary fails when it comes to express my gratitude to all those who helped me in building up this thesis to the present status.

This is my profound privilege to have the opportunity to work under the ablest supervision of my learned and most esteemed teacher Dr. Raiser Sinha, M.D., Associate Professor & Head, Department of Surgery, M.B.B Medical College, Ibarsi. Whose canny precision, deep enthusiasm, elegant endeavor and ingenious efforts for the completion of present work shall go in the annals of my life as an indelible event. His able guidance, constructive and valuable suggestions, criticism and meticulous attention have gone a long way towards the success of this work.

With great sense of obedience, I would like it express my indebtedness to my most revered and learned teacher Dr. P. Sinha, M.D. Professor and Head Department of Surgery, M.B.B Medical College, Ibarsi for his mature guidance, invaluable advice and kind supervision which helped me to achieve this goal.

I express my hearty thanks to all of my friends, colleagues and juniors of Surgery Department of this College for their constant support, encouragement and help. For flawless typing of this manuscript, I am thankful Mrs. Iopic Kerobin, C/o I. R. Computational, 1079, Nama Garh, Nagra, Ibarsi who made this printing neat and clean.

In the last but not the least I would like to thank all my patients who were the basis of my study.
