ACKNOWLEDGEMENT

I have had the good fortune of receiving innumerable helpful suggestions from many persons without whose unstinted help this thesis would not have seen the light of day. My heart felt thanks and gratitude are due to them.

First and foremost I express my gratitude and sincere thanks to Dr R. D. Helode, Professor and Head, School of Studies in Psychology, Pt. Ravishankar Shukla University, Raipur (M.P.), my guide without whose kind assistance and guidance, I would not have been able to complete this thesis.

My thanks are also due to Shri R.G. Bhave, Professor & Head, Department of Psychology, Mrs. Aruna Choubey, Assistant Professor (Psychology) and Dr (Mrs) Meeta Jha, Assistant Professor (Psychology), Govt. D.B. Girls, Raipur, whose departmental assistance helped me a lot in my research work.

A special tribute must be paid to the fine disposition of my husband Mr. R.M. Agrawal, who stood by me inspite of my moods. Without his active cooperation and
support this thesis would not have become a reality. I feel very much indebted to my daughter Shinee who innocently tolerated my negligible attention to her. I am grateful to my mother, father, brothers and sister-in-law for their constant encouragement.

I am thankful to Mr. Rameshwar Singh, Librarian, Pt. Ravishankar University, Raipur and Miss Sudha Saxena, Librarian, Govt. D.B. Girls P.G. College, Raipur for providing library facilities in spite of their tight schedules.

I am beholden to the entrepreneurs of small, large and medium scale industries for their cooperation in data collection.

Last but not the least, I express my thanks to Mr. Jagdish Agrawal for skillful typing of the manuscript of the thesis within a stipulated time limit.
