

CONTENTS

Chapter I	INTRODUCTION	
1.1	Section A: Theory of Solvent Extraction.....	1- 18
	References.....	19- 20
1.8	Section B: thio- and phenylthiosemicarbazones....	21- 37
	References.....	38- 47
1.10	Section C: Synthesis of reagent, preparation of inorganic salt solutions.....	48-53
	References.....	54
Chapter II	SPECTROPHOTOMETRIC DETERMINATION OF COPPER(II) WITH 2,6-DIACETYLPIRIDINE BIS-4-PHENYL-3-THIOSEMI- CARBAZONE(2,6-DAPBPTSC)	55- 76
2.1	Introduction	
2.2	Review of known methods	
2.3	Results and Discussion	
2.4	Applications of the developed method	
2.5	Conclusions	
	References.....	77- 79
Chapter III	EXTRACTIVE SPECTROPHOTOMETRIC DETERMINATION OF COBALT(II) WITH 2,6-DIACETYLPIRIDINE BIS-4-PHENYL-3- THIOSEMICARBAZONE(2,6-DAPBPTSC)	80-102
3.1	Introduction	
3.2	Review of known methods	
3.3	Results and Discussion	
3.4	Applications of the developed method	
3.5	Conclusions	
	References.....	103-105
Chapter IV	EXTRACTIVE SPECTROPHOTOMETRIC DETERMINATION OF CADMIUM(II) WITH 2,6-DIACETYLPIRIDINE BIS-4-PHENYL-3- THIOSEMICARBAZONE(2,6-DAPBPTSC)	106-126
4.1	Introduction	
4.2	Review of known methods	
4.3	Results and Discussion	
4.4	Applications of the developed method	
4.5	Conclusions	
	References.....	127-128

Chapter V	EXTRACTIVE SPECTROPHOTOMETRIC DETERMINATION OF MOLYBDENUM(IV) WITH 2,6-DIACETYL-PYRIDINE BIS-4-PHENYL-3-THIOSEMICARBAZONE(2,6-DAPBPTSC)	129-152
5.1	Introduction	
5.2	Review of known methods	
5.3	Results and Discussion	
5.4	Applications of the developed method	
5.5	Conclusions	
	References.....	153-156
Chapter VI	EXTRACTIVE SPECTROPHOTOMETRIC DETERMINATION OF PALLADIUM(II) WITH 2,6-DIACETYL-PYRIDINE BIS-4-PHENYL-3-THIOSEMICARBAZONE(2,6-DAPBPTSC)	157-180
6.1	Introduction	
6.2	Review of known methods	
6.3	Results and Discussion	
6.4	Applications of the developed method	
6.5	Conclusions	
	References.....	181-183
Chapter VII	EXTRACTIVE SPECTROPHOTOMETRIC DETERMINATION OF ZINC(II) WITH 2,6-DIACETYL-PYRIDINE BIS-4-PHENYL-3-THIOSEMICARBAZONE(2,6-DAPBPTSC)	184-204
7.1	Introduction	
7.2	Review of known methods	
7.3	Results and Discussion	
7.4	Applications of the developed method	
7.5	Conclusions	
	References.....	205-207
Chapter VIII	SUMMARY	208-212
