INDEX

CHAPTER I: INTRODUCTION ... ... 1 - 6
Survey of the literature
Aim and plan of the present work

CHAPTER II: CRYSTAL STRUCTURE AND MAGNETIC INTERACTIONS 7 - 27
Crystal structure of spinels
Magnetic interaction in a spinel
Saturation magnetisation of mixed spinels containing Zn$^{2+}$ ions

CHAPTER III: HYPERFINE INTERACTIONS AND ... 28 - 57
MÖSSBAUER PARAMETERS
Electrostatic interactions between the nucleus and electrons
Magnetic hyperfine interactions
Combined magnetic and electric quadrupole hyperfine coupling
Line shape
Mathematical analysis of Mössbauer spectra
Magnetic relaxation processes

CHAPTER IV: EXPERIMENTAL TECHNIQUES ... 58 - 67
Preparation of ferrites
X-ray and chemical analysis
Mössbauer apparatus and experimental procedure
Drive system
Detection and data collection
Drive calibration
Cryogenic system
Furnace for high temperature
Mössbauer absorber
Magnetisation measurements
CHAPTER V: RESULTS AND DISCUSSION

X-ray and chemical analysis
Magnetisation
Mossbauer results
Conclusions
