ACKNOWLEDGMENT

The entire work was carried out under the guidance of Dr. S. N. Rao, Reader in Zoology, Marathwada University, Aurangabad. I owe my deepest sense of gratitude for his keen interest in supervising this work.

I am extremely grateful to the authorities of the Department of Zoology of the Marathwada University where I had worked for my thesis. I was able to work all these years with the kindness of the S.B. College authorities for whom I am extremely grateful and to the authorities of the Pratibha Niketan College, Nanded also, I am thankful for certain courtesies at the fag end of my work.

My sincere thanks are also due to the authorities of the Indian Agricultural Research Institute, New Delhi and Forest Research Institute, Dehra Dun for providing the library facilities and type specimens for study.

I take this opportunity to express my gratefulness to Dr. B.R. Subbarao, Department of Entomology, British Museum (Natural History) London, Dr. M.C. Ramdas Menon, Division of Entomology, Indian Agricultural Research Institute, New Delhi, Dr. V.K. Gupta, Department of Zoology, University of Delhi, New Delhi, Dr. P.N. Chatterjee, Department of Entomology, Forest Research Institute, Dehra Dun for their valuable suggestions.

I am also thankful to Dr. P.K. Nikam, Department of Zoology, Marathwada University, Aurangabad for his assistance and constant encouragement throughout.
Lastly I place on record my sincere thanks to the large number of colleagues and friends who had been of great help and assistance to me in the preparation of this thesis.
