### CONTENTS

#### CHAPTER –I: INTRODUCTION 1-27

1.1. Introduction .......................... 1
1.2. Heavy metals in River sediment .......... 4
1.3. Fractionation of Heavy Metals in Sediments ... 10
1.4. Importance of Speciation of Heavy Metal ... 11
1.5. History of elemental speciation ........... 12
1.6. Problems to be solved by Speciation .......... 13
1.7. Speciation and Toxicity ................. 14
1.8. Studies on Indian Rivers .......................... 16
1.9. Effects of heavy metals on human life .......... 18
1.10. Health hazards and Environmental effects of some selective heavy metals ............ 18
1.11. Status and the effect of heavy metals in Cauvery river water and sediments .......... 22
1.12. River pollution by various sources ............ 23
1.13. Scope of the study ........................ 24
1.14. Background ............................ 26
1.15. Objectives of the research work ............... 27

#### CHAPTER –II: MATERIALS AND METHODS 28-42

2.1. Introduction .......................... 28
2.2. Study area ............................ 29
2.3. Sampling location of study area. ............... 31
2.4. Sample Collection ........................ 33
2.5. Sample Preservation and Storage ............... 33
2.6. Pre-treatment of the sediment sample .......... 34
2.7. Sediment Analysis ....................... 34
   2.7.1 pH .................................. 34
   2.7.2 Electrical Conductivity (EC) ............... 35
2.7.3 Organic Carbon 35
2.7.4 Potassium: Flame photometric method 36
2.7.5 Sodium: Flame photometric method 37
2.7.6 Determination of exchangeable Calcium and Magnesium 37
2.7.7 Instrumental Methods to determine heavy metal analysis 38
2.7.8 Methodology for determination of Heavy metal in Sediment 38
2.8 Speciation of Heavy metal in Sediment samples 39
   2.8.1 Multi-step sequential extraction 40

CHAPTER –III: RESULTS AND DISCUSSION 43-62
3.1 Introduction 43
3.2 Physico-Chemical Characteristics of sediment 43
3.3 pH 44
3.4 Electrical conductivity 45
3.5 Organic Carbon 46
3.6 Sodium 48
3.7 Potassium 49
3.8 Calcium 51
3.9 Magnesium 52
3.10 Heavy metal content in Sediment 54
   3.10.1 Copper 54
   3.10.2 Chromium 55
   3.10.3 Lead 57
   3.10.4 Zinc 58
   3.10.5 Nickel 59
   3.10.6 Iron 61

CHAPTER - IV: SPECIATION AND GEOCHEMICAL BEHAVIOR OF HEAVY METALS IN CAUVERY RIVER SEDIMENTS 63-131
4.1 Introduction 63
4.2 Metal Speciation 65
   4.2.1 Copper 66
4.2.2 Chromium 77
4.2.3 Lead 88
4.2.4 Zinc 99
4.2.5 Nickel 110
4.2.6 Iron 121

CHAPTER V: SUMMARY AND CONCLUSION 132-136
